ROBOT VACUUM CLEANER
2024

CONGA

They are not robots They are super robots

Conga is back with technologies that go beyond fiction to achieve professional cleaning results in a totally independent way. Forget about cleaning with your new robot. Conga manages itself to get rid of all the dirt thanks to its innovative scrubbing and vacuuming systems. What about dirt? With its self-emptying and auto-filling station, it guarantees total freedom.

Conga does EVERYTHING, so you don't have to.

CONGA

The ultimate cleaning robot

Ultrapower

Up to 10,000 Pa
that can do it all

AI¹

Cleans as you would

Millimetre-accurate navigation

Maps your home and cleans it thoroughly

Innovative scrubbing²

Effortlessly descales and adapts
mops to every situation

Integrated stations

Complete self-management for fully
independent cleaning

CONGA 20090 PROAI
INFINITYSOAP CUT&SPA

Cleans as you would

ITECH LÁSER EYE

Accurate navigation, even with poor light conditions

Not only does the robot feature AI and a camera, but it also includes built-in laser technology to clean with the same precision in both bright and dark environments. So no matter if it's night time or if you're on vacation and you left the blinds down; Conga will continue to clean with the utmost precision.

AI + CAMERA

Analyses, processes and does the job

Enjoy thorough and ultra-precise cleaning thanks to its camera and artificial intelligence, a combination that allows it to analyse each cleaning situation, recognise objects, avoid them and make decisions on the spot. What's more, thanks to its camera, it identifies all types of objects (large and small) and allows you to track cleaning in real time.

CUT&SPA STATION

The most complete station

The Cut&Spa Station does not only self-empty the dirty water and solids tank. It also fills the robot's tank with clean water and leaves its roller clean and dry so that you can use it at any time in optimal conditions.

HAIR CUTTING¹

Eliminates tangles

The innovative Station has a blade that breaks up tangled hairs and vacuums them up instantly, so the robot can vacuum over and over again with maximum efficiency.

AUTODOSE¹

Disinfectant cleaning

This function adds detergent to the robot's liquid tank for a scrubbing action that not only descales, but also eliminates germs, kills odours and polishes the floor.

HOT WATER¹

Keeps the mops always perfect

Now, the Station not only manages the robot's deposits, but also disinfects the mops with hot water to remove dirt and possible bacteria left between the fibers.

CONGA 16090 AI SPINARM HOME&WASH

Knows what to clean and what not

IA

ARTIFICIAL INTELLIGENCE

Dodges objects

Don't worry if there are objects in the way; the robot detects and dodges them to complete the programmed cleaning of the entire free surface.

SPINARM

Reaches into every nook and cranny

Conga brings cleaning to hard-to-reach areas, such as the recess under furniture or corners, thanks to the extendable design of its mop, which expands the range of action and improves results.

LIFTING SPINS

Lifts mops, protects carpets

The robot now has a system that automatically lifts the mops when it detects carpets, thus protecting them from dampness.

HOME&WASH STATION

Forget about the mop and the bucket

Take the worry out of cleaning your home in every way with the new Conga base. Now, it does not only sweep, vacuum and mop, but it also empties the dust, cleans the mops, dries and moistens them, and finally collects the dirty water after cleaning.

CONGA 14090 TWICE ROLLER HOME&FILL

The 10-in-1 super robot

TWICE ROLLER

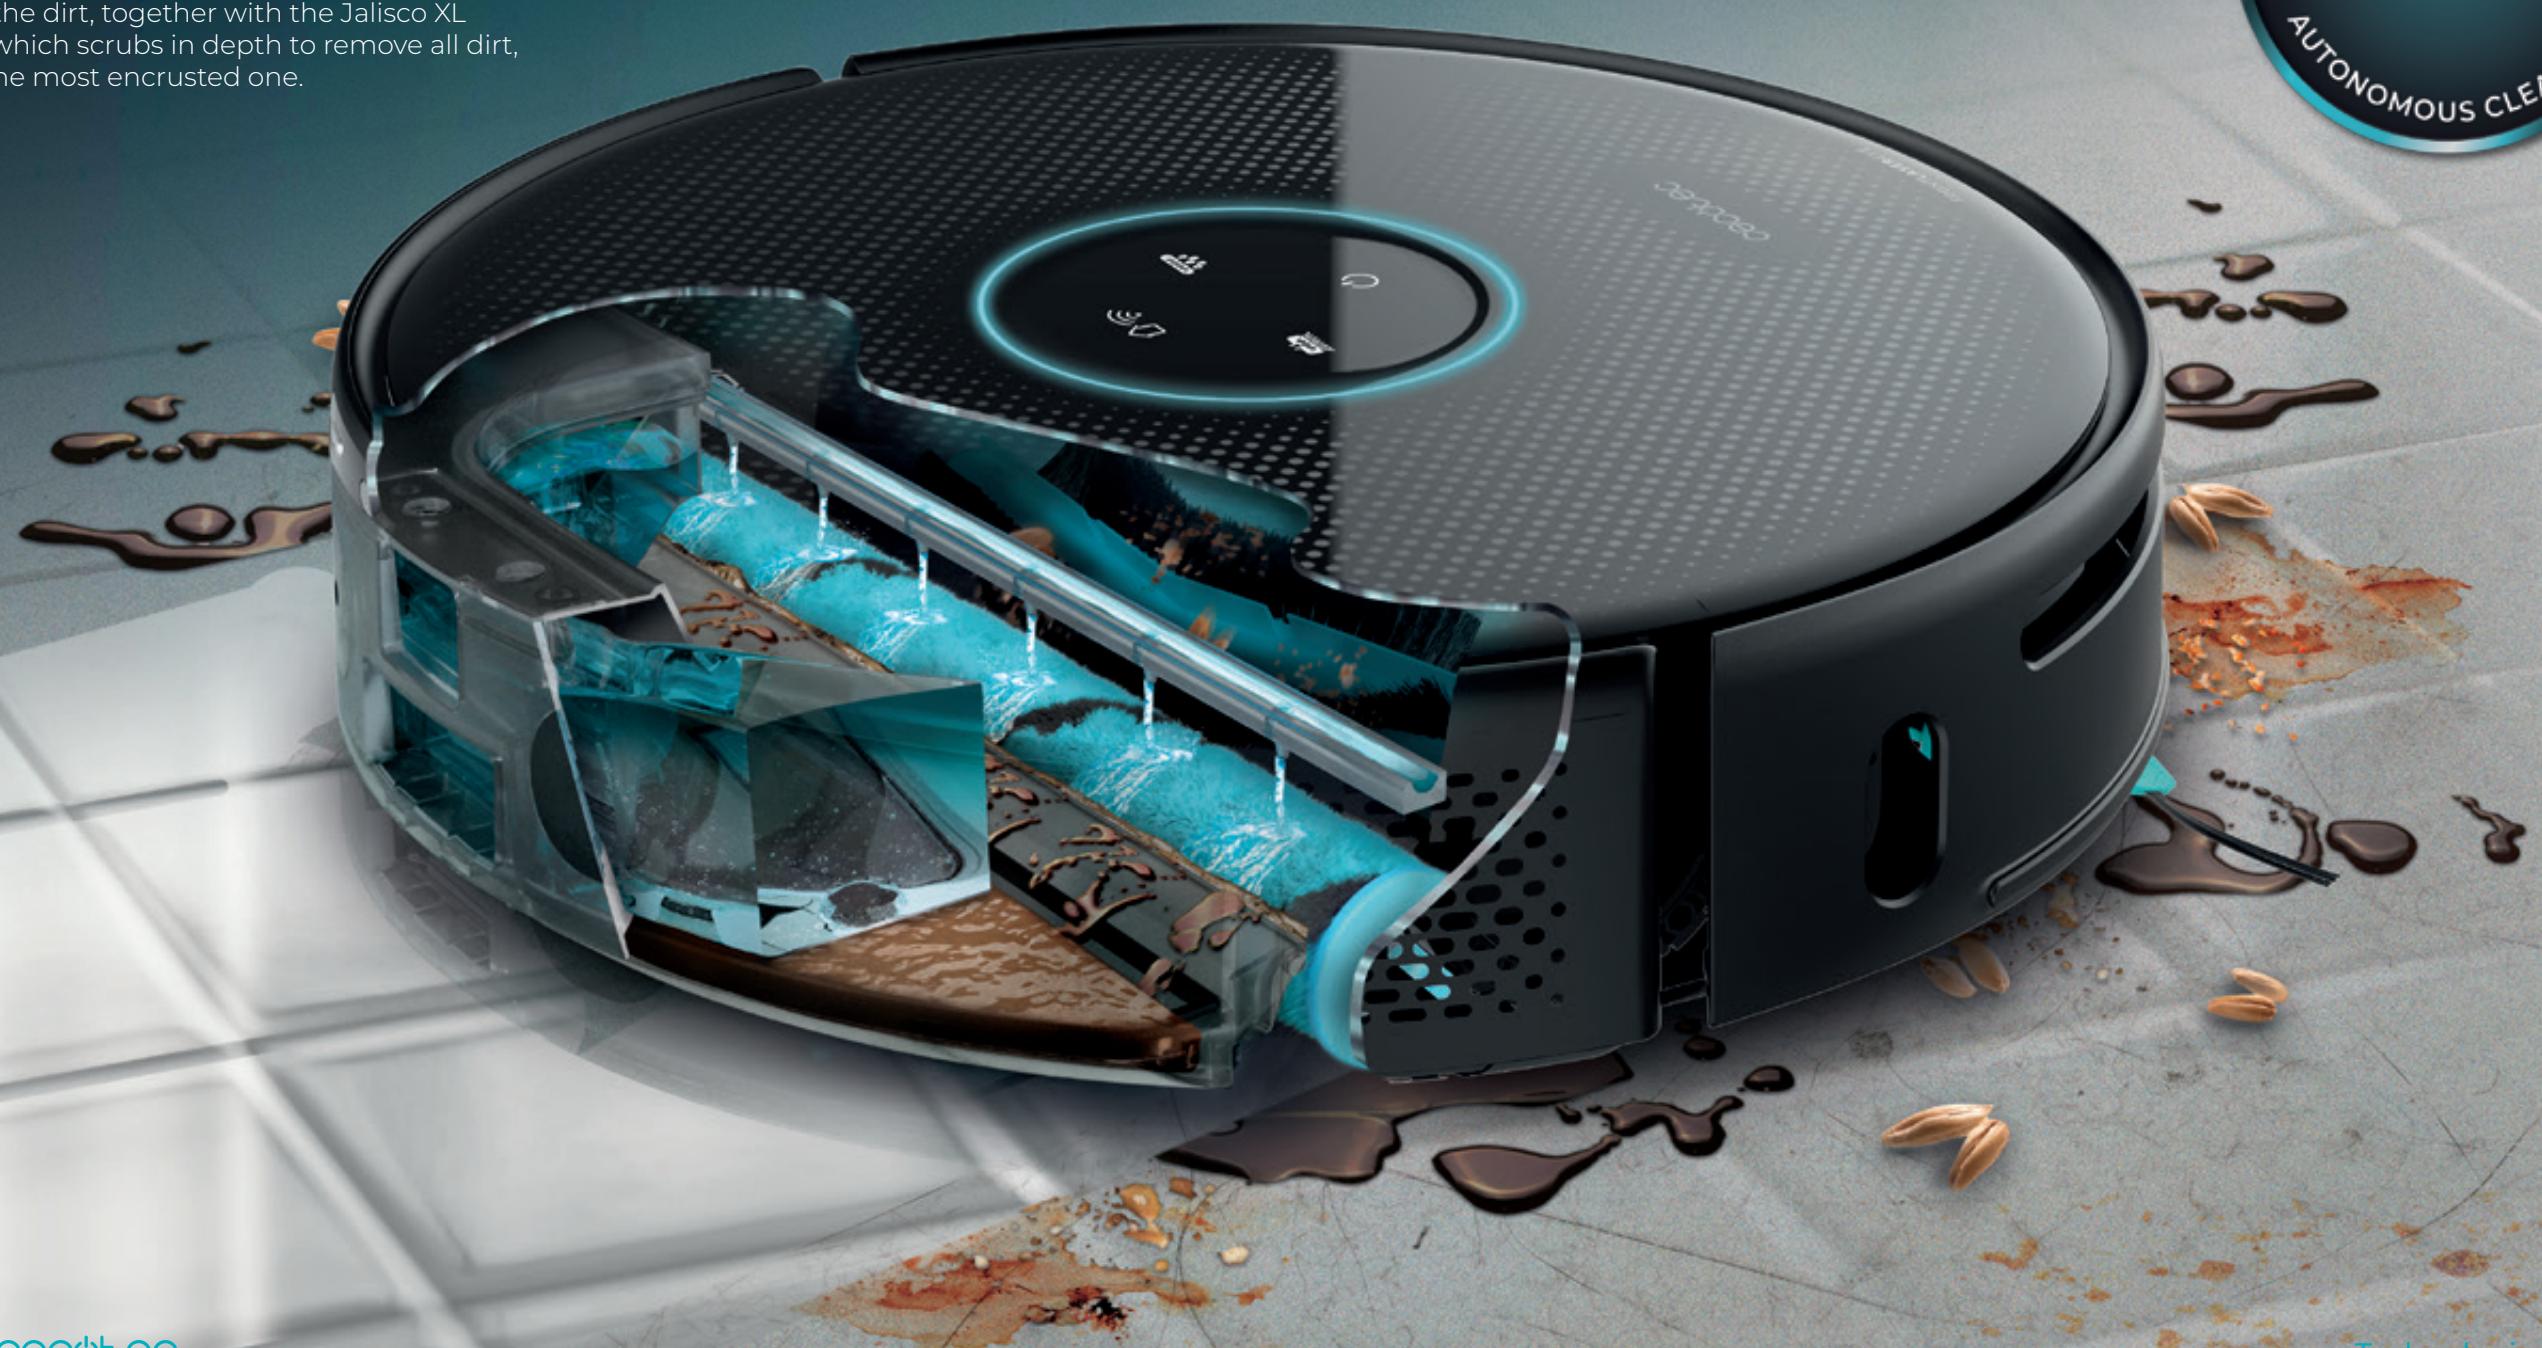

The unbeatable duo

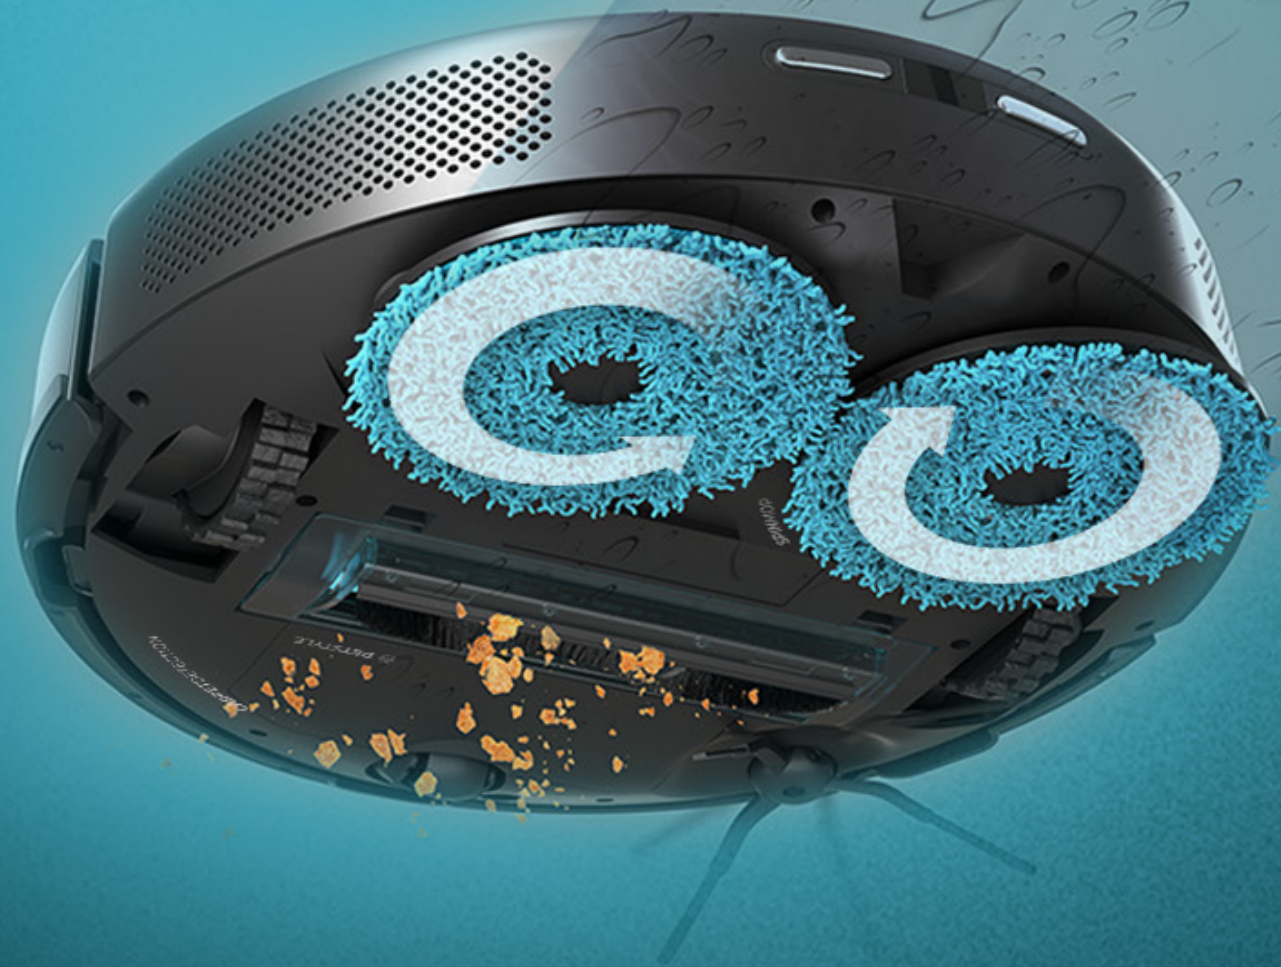

The most brutal union for a total cleaning, with a multifunction brush that collects and drags the dirt, together with the Jalisco XL roller, which scrubs in depth to remove all dirt, even the most encrusted one.

PERFECT WASH

Clean water use in every scrub guaranteed

Conga takes scrubbing to another level thanks to this technology, which allows it to scrub with clean water from start to finish. Moreover, it does so with an always perfect roller, as it has a special band that removes dirt from its fibres. An innovative process that, combined with its ultra-powerful suction, achieves unique cleaning results.

CONGA 13090 SPIN REVOLUTION HOME&WASH

Brutal suction power Even better scrubbing

MULTIFUNCTIONAL BRUSH + SPIN

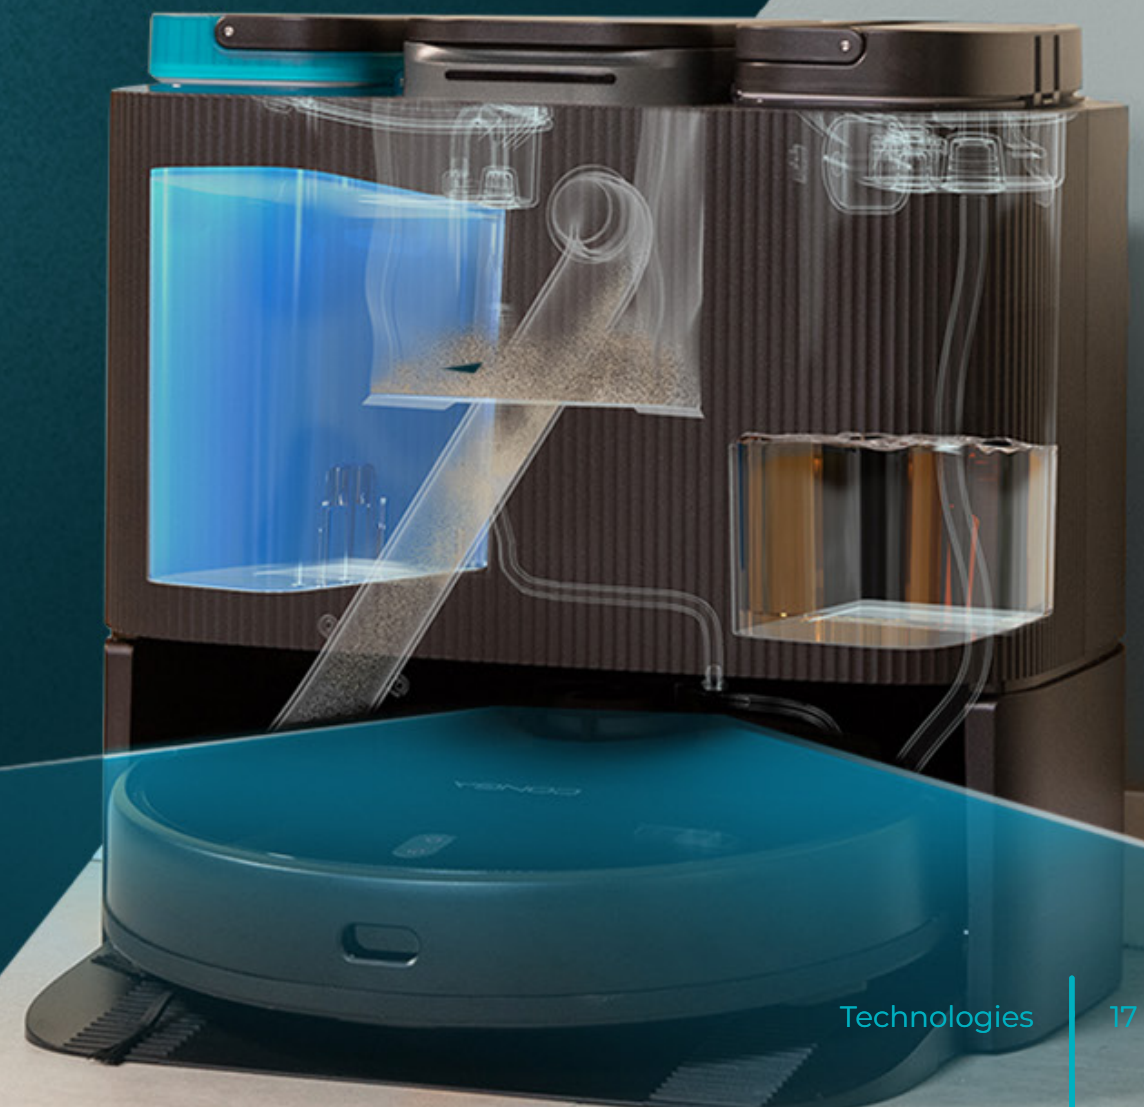

The perfect pack

The most brutal union for a unique cleaning, with a multifunctional brush that picks up and drags the most difficult dirt, and the rotating mops that leave no trace and make your floors shine like never before.

SPIN REVOLUTION

Extreme scrubbing

The innovative rotating system of the Spin mops is a real revolution. Thanks to its strong rotating power, its wet mops scrub the floor at high speed, achieving a cleaning performance that is second to none to that of a conventional mop.

LIFESTYLE BASE

Integrated design

Its design is conceived so that you can completely forget about the robot, not only because of the self-management of the cleaning, but also because of its finishes with different styles that allow the robot and its base to blend in with the decoration of every home.

SELF-EMPTYING BASE

3 months of independence¹, 0 concerns

Do not lose any time emptying the solids tank on your robot. It does it itself! With the self-emptying base, you can forget about dust without doing anything, as your Conga collects the dirt from your home and empties itself. What's more, with the new 3 L² base, you only have to change the bag 4 times a year¹.

Wipes out all dirt effortlessly

Go from power to ultra power with up to 10000 Pa of suction that sucks up even undetectable dirt. No matter the floor or the surface, Conga is able to catch the tiniest micro-dirt, even in thick carpets, all in one go¹!

¹. According to test results based on IEC 62885-4:2020 clause 5.8.

Ultrapower

Pascals (Pa): “negative” pressure or force exerted by the vacuum cleaner through the combined efficiency of its motor and brush to suck up all the dirt. Suction level varies according to the number of pascals, i.e., the higher the pascals, the more dirt it will trap.

ARTIFICIAL INTELLIGENCE

Thanks to its Artificial Intelligence¹, the Conga is able to make real-time decisions to deliver optimal, thorough cleaning every time. Moreover, it is constantly learning to improve its recognition system so it always knows what to do.

Bring new order to disorder

If it detects five or more objects on a room's floor, Conga registers it as clutter and sends a warning to your device to let you know which room can't be cleaned. In the meantime, it keeps on cleaning the house and goes back to said room once the clutter is removed.

Detects both large and small objects

Conga has now an improved recognition system. It detects a multitude of objects such as shoes, cables, wallets, socks, stools, scales, and more, to spare you this kind of worries.

Your most loyal cleaning ally

Conga's Artificial Intelligence is so smart that it identifies your pets and avoids them by creating a limited area so as not to disturb them.

Smart navigation, precise cleaning

Conga features smart navigation to effectively move by itself or on your command to leave your floors looking as good as new. Choose the type of navigation that best suits your needs and let your robot take care of the rest.

IA Artificial Intelligence

It detects objects, both large and small, dodges them and cleans in detail, avoiding risks.

iTech Láser Eye

It also scans and maps your home to deliver a tailor-made cleaning that removes all dirt and grime.

Random

Precise cleaning thanks to its anti-shock and anti-drop sensors.

Smart Gyro

It effectively senses, predicts and cleans your entire home with its Gyro 4.0 navigation.

APP 3.0

A new concept of connectivity

Use your smartphone to tell Conga where and how to clean. Use the shortcuts to choose the ideal cleaning mode and enjoy a thorough cleaning with a single gesture.

New app, new functions

SHORTCUTS

The app saves the most used settings so you don't have to waste time selecting the type of cleaning. One click and you're done!

ROOM PLAN

Decide on a room-by-room cleaning mode so that Conga cleans just as you would.

CONGA GAME

Cleaning will be a game, also who will become aware of household chores with Conga.

Specialised cleaning

Enjoy deep cleaning thanks to its different brushes that achieve a perfect scrubbing, as well as vacuuming even the invisible dirt.

SPIN REVOLUTION

Forget about traditional mops

It sweeps away both dry and liquid stains, thanks to its Spin scrubbing system, two super-absorbent textured mops that rotate at high speed while pressing against the floor to leave no trace of dirt behind.

WET JALISCO XL ROLLER²

Dry spots? No problem

Get a deep clean in less time thanks to its XL-sized, mop-textured design that descales and collects liquids and dirt with its super-absorbent filaments.

MULTIFUNCTIONAL BRUSH³

Descales, traps and vacuums

Effectively removes dirt and grime thanks to its design with bristles and silicone rubber to remove all types of dirt and grime, even from carpets.

SILICONE BRUSH⁴

Ideal for homes with pets

Forget about changing brushes according to the needs of each moment, as its silicone design provides versatility and unique efficiency on both hard floors and carpets. In addition, it collects long hairs as well as pet hairs, preventing tangles.

Autonomy that can do it all

The Conga battery is designed to clean your entire home with no downtime. With up to 240 minutes¹ of autonomy, it will clean every nook and cranny of your home - dirt will have nowhere to hide.

LARGE HOUSEHOLDS

Total cleanliness with no downtime

Enjoy extreme cleaning across the entire surface of your home thanks to a battery of up to 5200 mAh, which achieves a maximum of 240 minutes of vacuuming and 150 minutes of scrubbing to remove dirt and grime from every nook and cranny.

SMALL HOUSEHOLDS

Quick and thorough cleaning

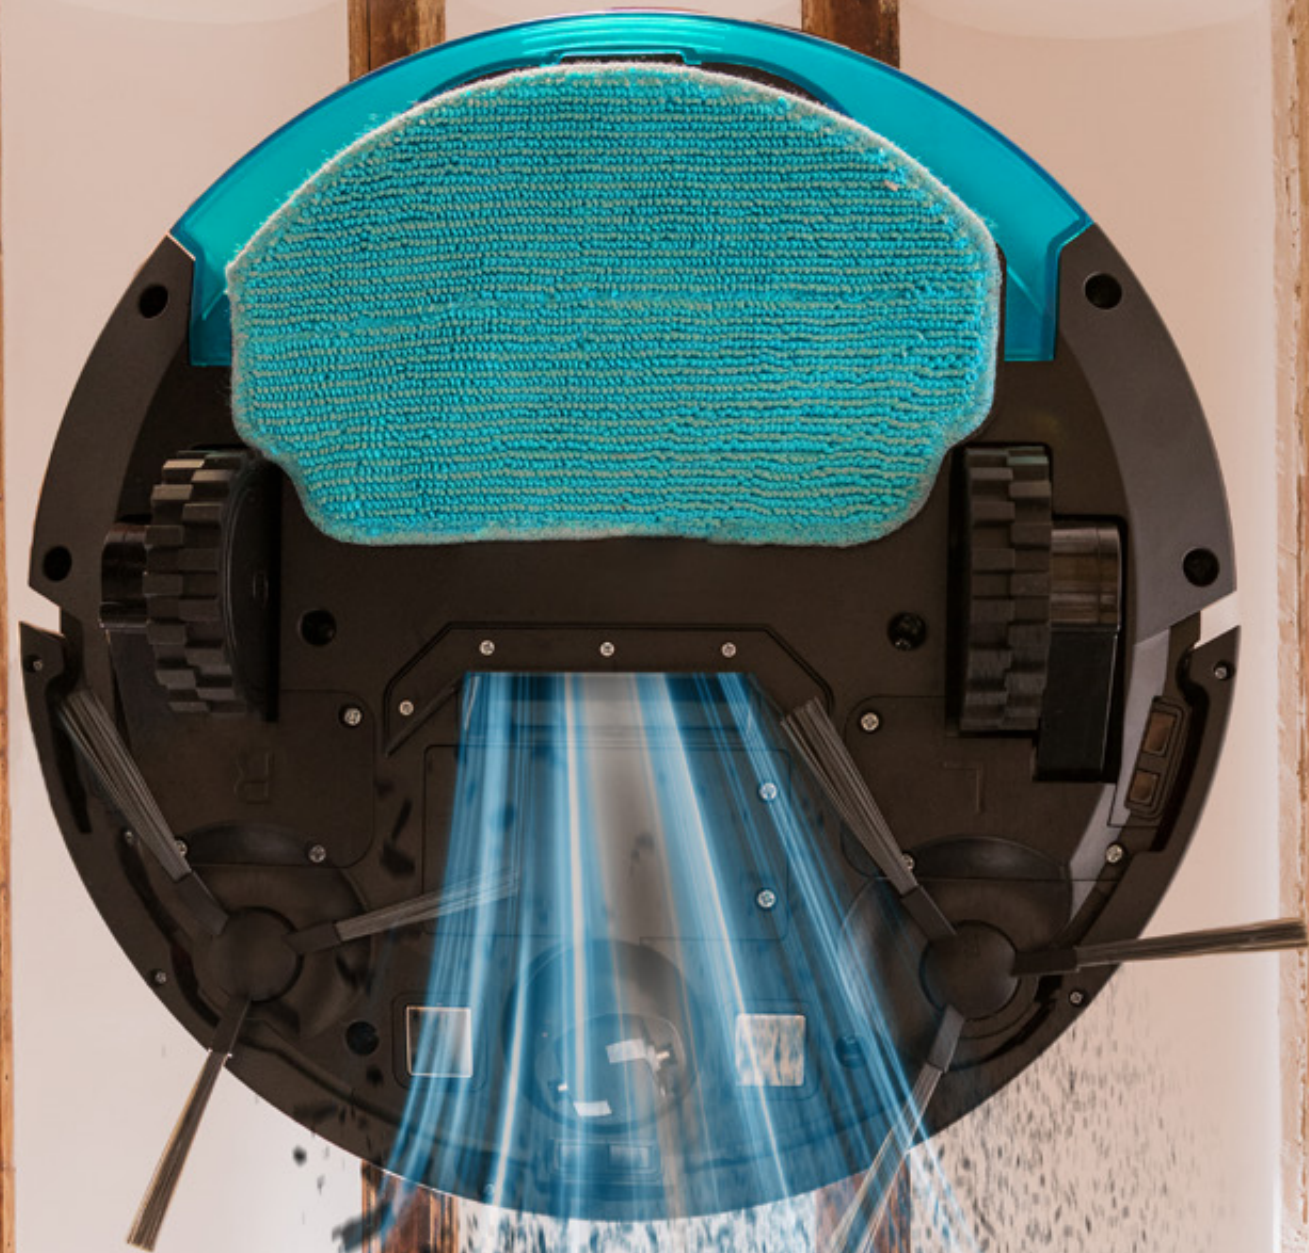

Activate the Turbo mode and the robot will deep clean your entire house in no time. This way, Conga cleans while you are away, so that when you get home your floors are spotless.

TOTAL SURFACE²

It never falls short

If the robot detects that it is low on battery to finish cleaning your home, it will return to its charging base by the fastest route to recharge and resume cleaning where it left off.

5-IN-1

Capable of anything!

Conga vacuums, mops, sweeps and now dries the floor after mopping¹. Connect with Conga and enjoy the most complete cleaning, forgetting about worries.

1. Function available on Conga 999 series models.

PROGRAMMES

Tailor-made cleaning

Everyday needs are totally different, and that's why Conga has up to 12 programmes¹ to tackle every type of dirt and household in the most effective way. Choose the programme that best suits your needs and enjoy a smart, tailor-made cleaning.

1. The programme number varies depending on the model.

Conga 999 Origin Genesis

Conga Origin robot vacuum cleaner with reactive navigation for a complete cleaning of the house. Large suction mouth with a power of 1000 Pa. 2 side brushes. 120-minute runtime. 6 cleaning programmes, with App and remote control. 2.4 GhZ Wi-Fi connectivity and Bluetooth. Scrubbing mop. Final floor drying phase.

FEATURES:

- iTech 3.0: efficient cleaning thanks to reactive navigation with proximity, anti-shock, and anti-fall sensors.
- Anti-tangle brushless suction mouth.
- 5 in 1: It sweeps, vacuums, mops, scrubs, and dries the floor.
- ForceClean 1000 Pa: maximises the robot suction power.
- Autonomy of up to 120 minutes.
- 5 cleaning programmes: Auto, Random, Edge, Spiral, Room, And Manual.
- Dry Clean: floor drying.
- Two side brushes.
- Smart scrubbing with 2 water-flow levels (high and low).
- APP control: Control your robot from smartphone wherever you are.
- Remote control

COMPOSITION:

Mop, 2 side brushes, self-cleaning brush, mixed tank, high-efficiency filter, remote control, instruction manual, robot vacuum cleaner

Gyro

A new cleaning order.

Conga 999 Map Genesis

Conga 999 Map Genesis robot vacuum cleaner with gyroscopic navigation for total home cleaning. 2000 Pa suction motor. 2 side brushes. Scrubbing mop. 120-minute runtime. Control via CECOTEC App and remote control. 2.4 GhZ Wi-Fi connectivity and Bluetooth.

FEATURES:

Neat cleaning: thanks to iTech SmartGyro 4.0. technology, the Conga will achieve neat cleaning thanks to its gyroscopic navigation.
Perfect suction at all times: avoids tangles in the brush thanks to its large suction mouth.
5-in-1 robot vacuum cleaner: vacuums, scrubs, sweeps, mops and dries.
High suction power: the motor's 2000 Pa suction power will keep your floors free of dirt and dust.
Conga cleans while you relax: take advantage of up to 120 minutes of battery life with Total Surface technology, so you can rest while Conga cleans for you.
6 modes: Conga adapts to the degree of soiling in your home thanks to its 6 different cleaning levels.
Large action range: its 2 side brushes increase the action range, so that nothing is left to be cleaned.
iWater: intelligent scrubbing with 3 levels of water flow.
APP and remote control: control the robot from your smartphone with the CECOTEC app and also from the remote control.

COMPOSITION:

Mop, 2 side brushes, self-cleaning brush, mixed tank, high-efficiency filter, remote control, instruction manual, robot vacuum cleaner

Conga 999 Map X-Treme

Conga 999 Map X-Treme robot vacuum cleaner with gyroscopic navigation for total home cleaning. 2000 Pa suction motor. 2 side brushes. 2 scrubbing mops. 120-minute runtime. Control via CECOTEC App and remote control. 2.4 GhZ Wi-Fi connectivity and Bluetooth.

FEATURES:

Neat cleaning: thanks to iTech SmartGyro 4.0. technology, the Conga will achieve neat cleaning thanks to its gyroscopic navigation.
Perfect suction at all times: avoids tangles in the brush thanks to its large suction mouth.
5-in-1 robot vacuum cleaner: vacuums, scrubs, sweeps, mops and dries.
High suction power: the motor's 2000 Pa suction power will keep your floors free of dirt and dust.
Conga cleans while you relax: take advantage of up to 120 minutes of battery life with Total Surface technology, so you can rest while Conga cleans for you.
6 modes: Conga adapts to the degree of soiling in your home thanks to its 6 different cleaning levels.
Large action range: its 2 side brushes increase the action range, so that nothing is left to be cleaned.
iWater: intelligent scrubbing with 3 levels of water flow.
APP and remote control: control the robot from your smartphone with the CECOTEC app and also from the remote control.

COMPOSITION:

2 mops, 2 side brushes, self-cleaning brush, mixed tank, high-efficiency filter, remote control, instruction manual, robot vacuum cleaner

Conga 2499 Ultra Genesis

Robot vacuum cleaner with gyroscopic technology. Scrubs, vacuums and sweeps at the same time. 2200 Pa suction power. Cecotec app. Multifunctional brush. Mixed tank. 2 side brushes. 3-litre capacity. 2.4 GhZ Wi-Fi connectivity and Bluetooth. Scrubbing mop

FEATURES:

- iTech SmartGyro: gyroscopic navigation for an orderly and efficient cleaning of all rooms.
- 2600 mAh battery: runtime of up to 160 minutes and Total Surface technology that takes the robot back to the base when battery is low to recharge and resume cleaning.
- Force Clean 2100 Pa: great suction power.
- Scrubbing mop
- Brush Pro: multifunctional brush, ideal for carpets. Bi-material design with bristles and silicone to remove all dirt.
- Turbo Clean Carpet: Turbo mode to thoroughly clean carpets.
- Dual side brush: increased action radius for more efficient cleaning.
- 6 cleaning modes: Auto, Random, Scrub, Spiral, Edge, And Manual.
- APP Control: control programmes, power, scrubbing, cleaning history and more from your smartphone.
- iWater: smart scrubbing with 3 water intensity levels (High, Medium, and Low).
- Memory Control: returns directly to the charging base after cleaning.
- AutoCharge: battery auto-recharge.

COMPOSITION:

2 side brushes, self-cleaning brush, multifunctional brush, mixed tank, high-efficiency filter, instruction manual, mop, robot vacuum cleaner

Conga 2499 Ultra X-Treme

Robot vacuum cleaner with gyroscopic technology. Scrubs, vacuums and sweeps at the same time. 2200 Pa suction power. Cecotec app. Multifunctional brush. Mixed tank. 2 side brushes. 3-litre capacity. 2.4 GhZ Wi-Fi connectivity and Bluetooth. 2 mops for scrubbing

FEATURES:

- iTech SmartGyro: gyroscopic navigation for an orderly and efficient cleaning of all rooms.
- 2600 mAh battery: runtime of up to 160 minutes and Total Surface technology that takes the robot back to the base when battery is low to recharge and resume cleaning.
- Force Clean 2100 Pa: great suction power.
- 2 mops for scrubbing.
- Brush Pro: multifunctional brush, ideal for carpets. Bi-material design with bristles and silicone to remove all dirt.
- Turbo Clean Carpet: Turbo mode to thoroughly clean carpets.
- Dual side brush: increased action radius for more efficient cleaning.
- 6 cleaning modes: Auto, Random, Scrub, Spiral, Edge, And Manual.
- APP Control: control programmes, power, scrubbing, cleaning history and more from your smartphone.
- iWater: smart scrubbing with 3 water intensity levels (High, Medium, and Low).
- Memory Control: returns directly to the charging base after cleaning.
- AutoCharge: battery auto-recharge.

COMPOSITION:

2 mops, 2 side brushes, self-cleaning brush, multifunctional brush, mixed tank, high-efficiency filter, instruction manual, robot vacuum cleaner

Conga 2499 Ultra Home Advanced

Robot vacuum cleaner with self-emptying base. Multifunctional brush. Mixed tank. 160-minute autonomy. Suction power of 2100 Pa. 3 power and scrubbing levels. 6 programmes. APP. Virtual assistants.

FEATURES:

4 in 1: robot vacuum cleaner that vacuums, scrubs, sweeps and mops.

iTech SmartGyro 4.0: Organized navigation for a more efficient cleaning thanks to its gyroscopic proximity, antishock and free-fall sensors.

APP Control: control programmes, power, scrubbing, cleaning record, and more from your smartphone.

Virtual Map: view your home map from the smartphone app.

iWater: smart scrubbing with 3 water intensity levels (High, Medium, and Low).

Multifunctional brush and mop.

ForceClean 2100 Pa: great suction power for thorough cleaning.

6 Programs: Smart Area, Edge, Spiral, Self-emptying, Square Spiral, and Random.

3 power levels: Eco, Normal, and Turbo.

TwinFloor mop: 2-material mop for perfect scrubbing results.

All-TimeTable: Programmable 24 hours, 7 days a week.

Immortal Battery: reaches a 160-minute range*.

COMPOSITION:

2 side brushes, self-emptying base, 3 l dirt-disposal bag, self-cleaning brush, mixed tank, high-efficiency filter, instruction manual, mop, robot vacuum cleaner

Conga 8290 Immortal Ultra Power Genesis

Conga 8290 Immortal Ultra Power Genesis robot vacuum cleaner with laser navigation. 4 in 1: sweeps, vacuums, scrubs, and mops. 7000 Pa. 280 minutes of autonomy. Mop for scrubbing. 1 side brush. 3 levels of suction and scrubbing power. Control via CECOTEC APP and virtual assistants.

FEATURES:

Laser navigation: map your home for precise cleaning of all the rooms you want in the shortest possible time.

Suction motor: 7000 Pa so that the robot leaves nothing to be vacuumed.

Autonomy: the robot has a 5200 mAh battery that provides more than 280 minutes of autonomy to cover more than 280 m².

Room Plan: allows you to define, plan and schedule the cleaning of your entire home or specific rooms thanks to the map generated.

10 modes: choose the mode that best adapts to your needs and enjoy a convenient and customised cleaning.

Restricted areas: select from the app the parts of your home that you don't want the robot to clean and forget about worries.

Back-and-forth scrubbing motion: the robot features intensive scrubbing with electronically controlled water dosing to leave your floor sparkling clean.

Total Surface: if the robot runs out of battery power, it automatically returns to the charge base and resumes cleaning to complete the scheduled cleaning.

App Control: enables cleaning control from anywhere, even with voice-activated virtual assistants.

COMPOSITION:

1 side brush, self-cleaning brush, multifunctional brush, mixed tank, high-efficiency filter, mop, instruction manual, robot vacuum cleaner

Conga 8490 Ultimate Ultra Power

Conga 8490 Ultimate Ultra Power robot vacuum cleaner with laser-navigation technology. 4-in-1 cleaning: it sweeps, vacuums, scrubs, and mops. 7000 Pa suction power. Autonomy of up to 170 minutes. Silicone main brush, optimal for pet hair. Mop for scrubbing, and 1 side brush. 4 suction and scrubbing power levels. App and virtual-assistant control.

FEATURES:

Laser navigation for precise cleaning. Create an interactive map of your home for precise, personalised cleaning of every space in your home, regardless of the intensity of the ambient light.

3.0 app: customised cleaning. Define, plan and schedule the cleaning of your entire home or by rooms, all from your app. Choose the cleaning order, restrict the areas you want and enjoy a tailor-made cleaning.

7000 Pa: ultra-powerful. It gets rid of dust, hair and all kinds of dirt thanks to its ultra-powerful 7000 Pa suction motor and leaves your surfaces as good as new.

Up to 170 m². Its 3200 mAh battery with up to 170 minutes of uninterrupted vacuuming time makes it ideal for covering up to 170 m²*.

*According to laboratory tests. Actual performance varies according to the distribution of the household.

Total cleaning in a single pass. Vacuums, sweeps, scrubs and mops both separately and simultaneously for spotless results.

Anti-tangle silicone brush. Get a total multi-surface cleaning with its anti-tangle silicone brush, ideal for homes with pets.

*The anti-tangle efficiency varies depending on the hair type and its length.

Total Surface 3.0. Cleanliness is never half done. If the robot runs out of battery power, it automatically returns to the charging base and resumes cleaning to complete the scheduled cleaning once the battery is charged.

COMPOSITION:

1 side brush, charging base, self-cleaning brush, silicone brush, mixed tank, high-efficiency filter, scrubbing mop, instruction manual, robot vacuum cleaner

Conga 9590 Spin Revolution Ultra Power

Conga 9590 Spin Revolution Ultra Power robot vacuum cleaner with laser navigation. 4 in 1: sweeps, vacuums, scrubs, and mops. 10.000-Pa suction power. Maximum 240 minutes of autonomy. Professional scrubbing with rotating mops. Silicone brush, optimal for pet hair. 1 side brush. 4 suction and scrubbing power levels. Control via Cecotec App and virtual assistants.

FEATURES:

Laser navigation for precise cleaning. The robot is equipped with laser technology that allows it to generate a map to navigate precisely and effectively clean every nook and cranny. In addition, this navigation system allows you to clean precisely even without light.

Spin Wet mops. Innovative scrubbing system with two mops that rotate at full speed, constantly wet and press down on the floor to remove even the most stubborn stains.

Perfect scrubbing. The Spin scrubbing system effectively and quickly removes dirt and stains to leave the floor sparkling. Connect with Conga, forget about mopping and enjoy a shiny floor.

10000 Pa ultrapower. Its Ungravity motor provides a suction of 10,000 Pa, a power that is capable of sucking up even extreme dirt on any surface, including high carpets.

Up to 240 m² without stops. Ideal for larger homes, as, thanks to its 5200 mAh battery, it is capable of vacuuming for 240 minutes and scrubbing for 200 minutes to provide a complete non-stop clean.

3.0 app: customised cleaning. Define, plan, and schedule room-by-room cleaning.

Ultrasonic carpet detection. The robot detects when there is a carpet and automatically boosts power to clean with maximum precision. In addition, if it is in scrubbing mode, it dodges the carpet so as not to wet the carpet fabric.

Anti-tangle silicone brush. Its silicone design makes it ideal for homes with pets as it prevents hairs from getting tangled. In addition, its side brush helps to descale and trap dirt on any surface.

Total cleaning in a single pass. Vacuums, sweeps, mops and scrubs with its Spin mops. A complete cleaning system that allows the robot to do everything at once or separately to offer a customised cleaning.

Total Surface 3.0. The robot always completes the cleaning, and if it needs more battery power to complete the programmed cleaning, it returns to its base, recharges and resumes cleaning at the same point where it left off.

COMPOSITION:

1 side brush, charging base, self-cleaning brush, silicone brush, mixed tank, high-efficiency filter, 2 packs of rotary scrubbing mops, instruction manual, robot vacuum cleaner

Conga 7490 Immortal Home Genesis

Conga 7490 Immortal Home Genesis robot vacuum cleaner with laser navigation and self-emptying base. 4 in 1: sweeps, vacuums, scrubs, and mops. Suction power of 3000 Pa. 120-minute autonomy. Multifunction main brush, mop for scrubbing, and one side brush. Four levels of suction and scrubbing power. App and virtual-assistant control. Automatic bag detection. 3-litre capacity.

FEATURES:

4 in 1: robot vacuum cleaner that vacuums, scrubs, sweeps and mops.
Self-emptying base with automatic bag detection (2 l capacity)
Laser navigation for precise cleaning.
2600 Pa suction power.
120-minute autonomy.

Láser Total Station

Total Station, total relaxation

Conga 11090 Spin Revolution Home&Wash

Conga 11090 Spin Revolution Home&Wash robot vacuum cleaner. 4-in-1 base (self-emptying of dust and mop cleaning). It features laser technology. Multifunctional brush. Rotating mops. Side brush. 5000 Pa suction motor. Apps and virtual assistants.

FEATURES:

Laser navigation robot with rotating mops
Autoclean base 5 in 1: Self-emptying of dust and waste water, clean water tank and cleaning and drying of mops.
4000 Pa suction power.
140-minute autonomy.
16 cleaning modes (restricted area, cleaning the hall, scrubbing the bathroom, after a party, spot, etc.) and quick cleaning.
Apps and virtual assistants.

COMPOSITION:

1 side brush, 2 rotating mops, self-emptying base with 2 tanks (clean water and waste water), dirt-disposal bag, power cable, self-cleaning brush, multifunctional brush, instruction manual, robot vacuum cleaner

Conga 11090 Spin Revolution Home&Wash T

Conga 11090 Spin Revolution Home&Wash T robot vacuum cleaner, 4 in 1 base (dust self-emptying and mops cleaning). It features laser technology. Multifunctional brush. Rotating mops. Side brush. 5000 Pa suction motor. Apps and virtual assistants.

FEATURES:

Navigation with laser technology for precise cleaning of your home, zone delimitation or localised cleaning.
With the new super-absorbent spin mops, leave your floors sparkling clean and scrub liquids, sauces and dry stains.
The base is fully independent: it self-empties itself of dust, cleans and dries the mops, moisturises them for further cleaning and collects the dirty water after cleaning.
Intelligent carpet cleaning thanks to its ultrasonic detection, stopping the mops as it passes over them.
The self-emptying base has an automatic safety detection system for the hygienic bags, a filling buoy for the waste-water tank and a vacuum buoy for the clean water.
Forget about touching dust and getting your hands dirty thanks to the 2 litre capacity of the dirt-disposal bag, 2.8 litre capacity of the clean-water tank and 2.4 litre capacity of the waste-water tank.
Up to 140 minutes of autonomy for perfect cleaning. If the robot runs out of battery, it automatically returns to the base to charge; then continues cleaning where it left off with completely clean mops.
Define, plan and schedule the cleaning of your home. Thanks to the map that is generated, you can select both complete cleaning and cleaning of specific rooms.
5000 Pa power in the suction motor that sucks up both micro-dirt and larger dirt.
The 8 cleaning modes (edge, area, spot, scrub, auto, square spiral, round spiral and deep cleaning) make the robot adaptable to any need in your home.
The robot is equipped with a fall protection system that detects if there are any steps.
Allows control via mobile application and virtual voice assistants.

COMPOSITION:

1 side brush, 2 rotating mops, self-emptying base with 2 tanks (clean water and waste water), dirt-disposal bag, power cable, self-cleaning brush, multifunctional brush, instruction manual, robot vacuum cleaner

Conga 13090 Spin Revolution Home&Wash

Conga 13090 Spin Revolution Home&Wash robot vacuum cleaner. 7000 Pa suction motor. 4-in-1 base. It features laser technology. Silicone brush. Rotating mops. Side brush. App, Bluetooth and Wi-Fi connection for 2.4 GHz and 5 GHz networks.

FEATURES:

Laser navigation for precise cleaning. The robot is equipped with laser technology that allows it to generate a map to navigate precisely and effectively clean every nook and cranny. Shiny floors. With the new super-absorbent spin mops, leave your floors sparkling clean and scrub liquids, sauces and dry stains.

Maximum performance. 7000 Pa power in the suction motor that sucks up both micro-dirt and larger dirt.

Cleaning without haste. Up to 140 minutes of autonomy in a single vacuuming session for perfect cleaning. If the robot runs out of battery, it automatically returns to the base to charge; then continues cleaning where it left off with completely clean mops.

Anti-tangle silicone brush. Its silicone design makes it ideal for homes with pets as it prevents hairs from getting tangled.

The base is fully autonomous. The base is self-emptying, cleans the mops, dries them and collects the waste water after cleaning.

Tailor-made cleaning. Define, plan and schedule the cleaning of your home thanks to the map that is generated, you can select both complete cleaning and cleaning of specific rooms.

Easy linkage. The model features Bluetooth and Wi-Fi for 2.4 GHz and 5 GHz networks, allowing for easy pairing to your networks and devices.

Ultrasonic carpet detection. The robot detects when there is a carpet and automatically boosts power to clean with maximum precision. If it is in scrubbing mode, it dodges it so as not to wet the carpet fabric with its mops.

Forget about touching dust. 2 l capacity of the dirt-disposal bag, 2.8 l capacity of the clean water tank and 2.4 l capacity of the waste water tank.

Detection system: The self-emptying base has an automatic safety detection system for the hygienic bags, a filling buoy for the waste-water tank and a vacuum buoy for the clean water.

Water shortage warning. It is necessary to fill the clean-water tank before the first use of the appliance. A red light will be displayed and cleaning will not be possible.

COMPOSITION:

Robot vacuum cleaner, self-emptying base with 2 tanks (clean water and waste water), dirt-disposal bag, side brush, 2 rotating mops, power cable, brush, instruction manual

Conga 14090 Twice Roller Home&Fill

Conga 14090 Twice Roller Home&Fill scrubbing robot vacuum cleaner with self-emptying base for dirt and waste water and clean-water refill. Ultra-precise navigation with built-in laser. 8000 Pa suction power. Professional scrubbing with mop roller. Silicone brush. Side brush. App, Bluetooth and Wi-Fi connection for 2.4 GHz and 5 GHz networks, virtual assistant.

FEATURES:

Laser navigation for precise cleaning. The robot is equipped with laser technology that allows it to generate a map to navigate precisely and effectively clean every nook and cranny. In addition, this navigation system allows you to clean precisely even without light. Conga does everything for you. 10-in-1 robot vacuum cleaner: sweeps, vacuums, scrubs and mops; cleans, drains and dries the roller; self-empties the dust tank and waste water tank, and refills its tank with clean water. Total cleaning in a single pass. Twice Roller: perfect cleaning in a single pass with its silicone brush that sweeps away dirt and hair, and its Jalisco XL brush that absorbs all types of liquids. Super absorbent, super professional. Wet Jalisco XL professional mop roller which scrubs more surface with super absorbent texture that scrubs liquids and sauces, and removes dried stains, leaving your floors sparkling clean. Leaves the roller ready for the next use. After finishing the cleaning, the robot dries the roller in the station to prevent odours and to prepare it for the next cleaning. Up to 240 m². With the Infinity Wash technology get prolonged scrubbing on up to 240 m² of surface thanks to clean water filling and self-emptying of waste water in the base. 8.000 Pa: ultra-powerful. Take advantage of its ultra-powerful suction that sucks even the most stubborn dirt out of carpets. Autonomy up to 240 min. Pet owners, this is your lucky day. Its silicone design makes it ideal for homes with pets and for all types of carpets, floors and hairs, as it prevents them from getting tangled. 3.0 app: customised cleaning. Define, plan, and schedule room-by-room cleaning. Control cleaning from anywhere, choose the ideal mode per room and restrict zones for a fully personalised cleaning experience. 7 cleaning modes: edge, area, spot, auto, square spiral, round spiral and deep cleaning. Control it with your voice.

Conga 15090 SpinArm Home&Wash

Conga 15090 SpinArm Home&Wash robot vacuum cleaner Laser navigation technology. Self-emptying base with dirt and water tanks, cleaning and drying of mops. Silicone brush. Rotating and lifting mops. Side brush. 8000 Pa suction motor. Apps and virtual assistants.

FEATURES:

Smart navigation for ultra-precise cleaning. Laser navigation: map your home to clean every nook and cranny with pinpoint accuracy. Mops that can be lifted and extended for a fast mopping action. SpinArm system: effectively wipes edges and the underside of furniture thanks to its extendable right mop. In addition, it also has liftable mops (10 mm) so that you can plan your mopping in advance, preventing the moisture from the mops from coming into contact with carpets or rooms where you only want the vacuuming function. Extreme cleanliness on any surface, even on high carpets. Ultra powerful with 8000 Pa, a suction power that sucks up to micro dirt on hard surfaces as well as on carpets and rugs. Complete maintenance, no worries at all. The Home&Wash base autonomously looks after and manages the robot's maintenance thanks to the self-emptying and self-filling systems, which leave the robot as good as new to start each cleaning plan in the best conditions. In addition, after cleaning the tanks, the base dries the mops to prevent odours and germs. Traps all dirt and prevents tangles. Silicone brush: its design allows deep cleaning, removing all types of dirt without tangles, making it the ideal brush for homes with pets. Protects carpets from humidity and vacuums them thoroughly. Carpet Care: ultrasonic carpet detection that allows the robot to lift the mops to protect them from moisture. In addition, the robot automatically increases the suction level to vacuum deeper, removing the dirt you can't see. Vacuums up to 240 m² with its 240' autonomy and scrubs for 160 minutes non-stop. 5200 mAh battery enables non-stop cleaning of large houses and medium-sized houses in Turbo mode, cleaning in depth in less time. In addition, if the battery runs out, it automatically returns to its base to recharge and resumes cleaning where it left off. Connect with your robot for guaranteed cleanliness. App 3.0: know in detail each cleaning plan made and plan the next cleaning plans by room, choosing the cleaning mode and restricting the areas you do not want the robot to clean. Quick and easy pairing. Bluetooth and Wi-Fi for 2.4 GHz and 5 GHz networks, which allows the robot to be ready in just a few minutes, and its connectivity also provides an immediate response to control the robot efficiently from the mobile phone.

Conga 20090 ProAI InfinitySoap Cut&Spa

FEATURES:

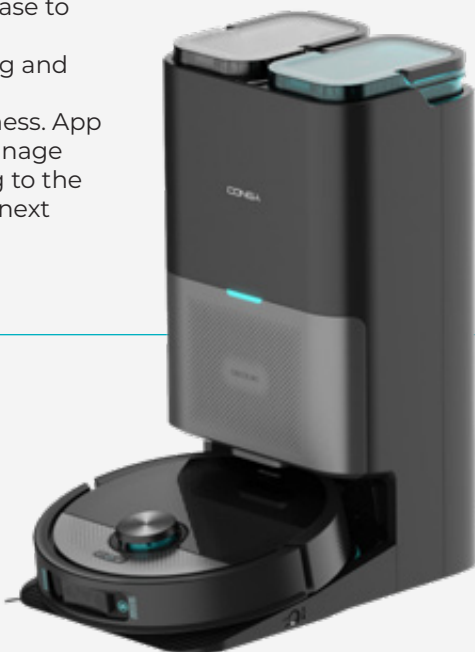

Smart navigation for ultra-precise cleaning, even without light. Laser navigation: map your home to clean every nook and cranny with pinpoint accuracy. It recognises objects, dodges them, analyses the type of floor and the level of dirt. Artificial Intelligence: the robot cleans just like you would do thanks to its 3DIANA chip, which allows it to recognise objects such as cables, socks, shoes, etc. Create cleaning plans in real time according to the detected needs. AI PlanMaster: analyses the type of floor and the level of soiling to create personalised cleaning plans. Thorough scrubbing that removes stains and disinfects. Infinity Soap: constantly moistens Spin mops with a mixture of water and floor cleaner to mop efficiently, leaving the floor shiny and smelling good. Mops that can be lifted and extended for a fast mopping action. SpinArm system: effectively wipes edges and the underside of furniture thanks to its extendable right mop. Complete maintenance, no worries at all. Cut&Spa Base: looks after and self-manages the robot's maintenance so that it is always in perfect condition to start cleaning. In addition to self-emptying and self-filling, the innovative HairCutting system cuts and vacuums tangles from the brush, disinfects the mops with hot water and floor cleaner, and dries the mops with air to prevent germs. It cuts and vacuums up the hairs from the roller and also empties the solids tank. Dry Care, with the HairCutting system, a blade built into the base that moves across the width of the brush cutting any tangles while also cleaning it at high speed to leave it as good as new. Disinfect the mops with hot soapy water and collect the waste water from the robot. Wet Care, with the innovative AutoDose system, makes a mixture of hot water at 60 °C and cleaning agent to disinfect the mops. Extreme cleanliness on any surface, even on high carpets. Ultra powerful with 8000 Pa, a suction power that sucks up to micro dirt on hard surfaces as well as on carpets and rugs. Vacuums up to 240 m2 with its 240' autonomy and scrubs for 160 minutes non-stop. 5200 mAh battery enables non-stop cleaning of large houses and medium-sized houses in Turbo mode, cleaning in depth in less time. In addition, if the battery runs out, it automatically returns to its base to recharge and resumes cleaning where it left off. Videomanager: visualise in real time the cleaning and control the state of your home. Connect with your robot for guaranteed cleanliness. App 3.0: know in detail each cleaning plan made, manage the plans recommended by the robot according to the analysis of its artificial intelligence and plan the next cleaning plans for each room.
