4 products for 4 moments of the day

AIRLISSE AND AIRLISSE 2IN1 AIR
HAIR STRAIGHTENERS

Perfect hair even after working out

AIRGLAM STYLER

Unique hairstyles for special
occasions

NANO IONTECH HAIR DRYER

Be always on time and
flaunting a stunning
hairstyle

HAIRCARE REVITALIZE BRUSH

Pamper your hair
before going to bed

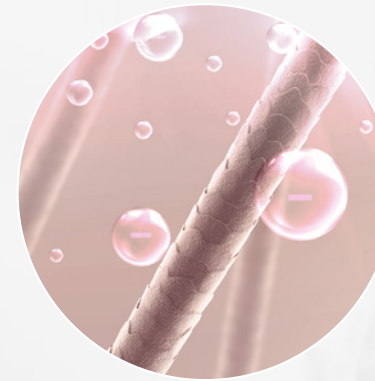

Nano IonTech hair dryer

Get dry, shiny and frizz-free hair quickly with the new Nano IonTech hair dryer whose Plasma technology will help your get a gentle and frizz-free blow-dry.

BRUSHLESS MOTOR

Digital, lightweight and durable

The Brushless motor is more powerful, durable and quieter than other hair dryers with other types of engines. With 110.000 rpm and 1600 W, it is ideal for abundant manes and thick hair thanks to its fast and even drying. Enjoy a gentle and practical blow-dry on a daily basis.

PLASMA

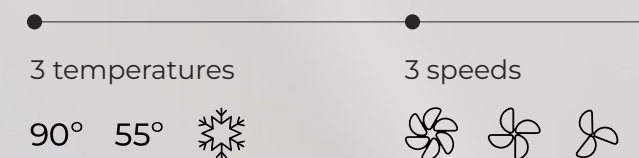

The future of anti-frizz

Plasma technology compensates the humidity level by combining positive and negative ions that restore the hair's natural moisture and control frizz, leaving a silky, nourished and sleek mane.

SPEED AND TEMPERATURE

Suitable for all hair types

It includes 3 temperatures to suit all hair types, including cold air to seal and prolong your hairstyles.

IoniCare Rockstar Nano IonTech

Hair dryer with nano ions, 110000 rpm, display, intelligent heat control, 3 temperatures, 3 speeds and memory function.

FEATURES:

Nano Ion. The work of the nano ion generator is to balance the hair with positive and negative charge, reducing frizz. Contains
Powerful brushless motor of 110.000 rpm and 1600 W, optimises the power of the motor by turning at higher revolutions to obtain a large continuous air flow with lower energy consumption for a more efficient, powerful, silent and light drying.
View the chosen speed and temperature settings through the display.
Smart heat control. Thanks to the built-in thermostat, the hair dryer measures the air temperature and sends the information to a microprocessor to intelligently control the temperature and prevent damage to the hair from uncontrolled extreme heat.
It includes 3 temperatures to suit all hair types, including cold air.
Get any type of hairstyle thanks to its 3 speed settings.
Enjoy the convenience of using this hair dryer thanks to its compact and lightweight design.
Its Memory function ensures that it remembers the last speed and temperature setting used for fast start up.
Includes 2 professional accessories with magnetic assembly system for easy assembling and disassembling. The diffuser is designed for natural, frizz-free curls, and includes 1 professional concentrator nozzle to define the style and straighten the hair.
Quieter motor, making it easier to dry your hair.

IoniCare RockStar Nano IonTech Champagne

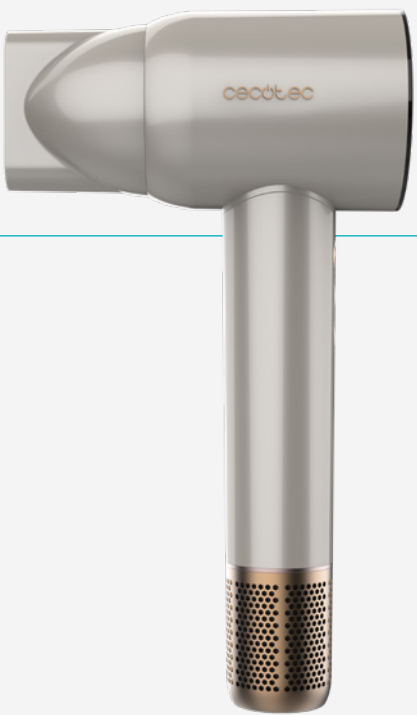

Hair dryer with Plasma technology, 110000 rpm, display, smart heat control, 3 temperatures, 3 speeds and memory function.

FEATURES:

Plasma technology: features negative ions that neutralise the positive ions naturally found in hair and cause the cuticle to close, sealing moisture in the hair shaft and completely eliminating static electricity from your hair.
More airflow, less noise: thanks to its brushless motor with 110000 rpm and 1600 W, you can enjoy less noise, higher airflow and longer life.
View your settings: you can view your chosen speed and temperature settings via the display on the dryer.
Intelligent heat control: thanks to the built-in thermostat, the dryer measures the air temperature and sends the information to a microprocessor to intelligently control the temperature and prevent damage to the hair from uncontrolled extreme heat.
Suitable for all hair types: 3 temperatures to suit all hair types, including cold air.
Choose your ideal hairstyle: achieve any type of hairstyle thanks to its 3 speeds.
Convenient to use: enjoy the convenience of using this dryer thanks to its compact and lightweight design.
Memorises settings: its memory function ensures that it remembers the last speed and temperature setting that was used on the dryer, so that it is ready to use instantly.
Includes a professional concentrator nozzle to define the style and straighten the hair.
Quiet motor: quieter motor, making drying hair easier.

RitualCare AirLisse air hair straightener

Simplify your hair routine with the AirLisse and AirLisse 2in1 air hair straighteners. Dry and straighten your hair at the same time with a single product, reducing the time and heat applied to your mane.

AIR-SILK TECHNOLOGY

Silky straightening

Pressurized hot air provides fast and precise drying. In addition, its ceramic and keratin coated heating plate optimises the straightening process, leaving your hair soft, smooth and shiny.

PLASMA

Greater shine, less frizz

With Plasma technology that eliminates frizz, increases shine and protects hair from damage.

AIR HAIR STRAIGHTENER

From wet to straight

Forget about drying and straightening your hair separately. Now, remove humidity and straighten your hair at the same time with just one appliance. Reduce the time and heat applied to your hair.

RitualCare AirLisse air hair straightener

AirLisse 2in1, ideal for those moments when you need the effectiveness of a hair dryer and a straightener at the same time.

AIR-SILK TECHNOLOGY

Silky straightening

Pressurized hot air provides fast and precise drying. In addition, its ceramic and keratin coated heating plate optimises the straightening process, leaving your hair soft, smooth and shiny.

PLASMA

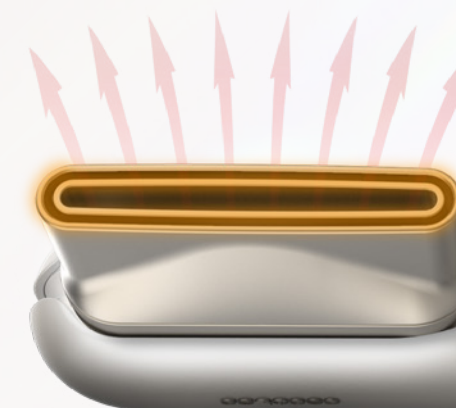

Greater shine, less frizz

With Plasma technology that eliminates frizz, it increases shine and protects hair from damage.

2 ATTACHMENTS

Dries, smooths and shapes

Our RitualCare AirLisse 2in1 straightener has 2 attachments: an air concentrator and a brush that allows you to dry, style and remove any natural wave from your hair.

AIR CONCENTRATOR
Dries and straightens hair

BRUSH
Dries and eliminates natural waviness

RitualCare Air Lisse 2in1 Black

Air hair straightener with 2 heads: brush and concentrator. It features 106000 rpm with a high-tech digital motor. Dry and straighten your hair with this time-saving straightener.

FEATURES:

Dries and smooths with just one appliance. The Air straightener is a revolutionary appliance that combines the benefits of a hairdryer and a hair straightener. Now you can dry and straighten your wet hair at the same time, thanks to its air power and heating plates. Two magnetic heads included. This versatile appliance features two magnetised heads: a brush head to gently straighten your hair while drying, and a concentrator head to remove moisture from your hair. Fast and efficient drying. Motor with 106000 rpm power with 27.78 L/s, which improves drying efficiency by accelerating moisture evaporation. Eliminates frizz. The hair straightener is equipped with a Plasma function that emits 3 million negative and positive ions. This reduces frizz, increases shine, protects against damage, eliminates static and improves straightening efficiency, giving you healthy, radiant hair. Plate-closing detection sensor. When you close the plates, the air power is automatically increased, providing more efficient drying and straightening. This smart sensor ensures fast and effective results. Save time in your routine. Simplify your hair care routine with this air straightener that dries and straightens in one easy step. Forget about using multiple appliances and save time every day. High pressure air slot. The appliance has a very narrow slot through which the air escapes at a higher pressure. This allows for faster and more precise drying, ensuring that your hair dries evenly and efficiently. Standby sensor. For added safety and convenience, the appliance has a sensor that detects when you have left it idle on a surface and switches the device off completely. This way, you can use it conveniently without constant background noise. Customise the straightening. Adjust the temperature of the heating plates with 3 temperatures up to 150 °C. Find the perfect temperature match for your hair type and desired style. Seals the hairstyle. Extend the life of your hairstyle with the cold air button, which helps to seal it and provides a long-lasting, professional finish. This feature ensures that your style stays intact all day long.

AirGlam

Any occasion is a good time to spoil your hair with a unique hairstyle. Create unlimited looks with AirGlam, and thanks to its up to 14 attachments, you will be able to reinvent your hairstyle in endless ways.

COANDA EFFECT

Effortless hair styling

The revolutionary AirGlam styler technology uses the Coanda effect to shape your hair and create perfect, precise waves in seconds. Its powerful flow of hot air draws the hair around the attachment, wrapping the hair around the cylinder and creating ultra-defined curls.

2, 8, 10, 12 AND UP TO 14 HEADS

For endless looks

Our AirGlam's complete set of attachments offers a wide variety of styling possibilities to create the perfect look for every occasion.

CERAMIC AND KERATIN COATING

Maximum heat protection

The styler heads have a ceramic coating that distributes the heat evenly throughout the plate, protecting your hair at all times. Thanks to its keratin coating, hair stays healthy, strong and shiny with every stroke.

BRUSHLESS MOTOR

Powerful, lightweight and durable

Enjoy hairdressing results in the shortest possible time. Thanks to the powerful 1400 W Brushless motor and its 110,000 rpm, the styler guarantees an optimal airflow for easy styling.

CeramicCare 2in1 AirGlam Black

Multifunctional 2 in 1 styler with Coanda technology that shapes, curls, styles, dries and eliminates frizz. With 3 speeds, 3 temperatures and smart heat control. Digital motor with 1400 of W power and 110000 rpm. Ceramic and keratin coated heads.

FEATURES:

2 cylindrical heads: curl your hair in both directions thanks to the Coanda effect.
Coanda Technology: the air from the styler follows the surface of the two curling barrels, wrapping the hair around the styler and creating perfect curls effortlessly.
Ceramic coating: the styler has ceramic and keratin coated heads that keep hair healthy and shiny, giving strength and elasticity to your hair.
Powerful 1400 W high speed motor: enjoy the best performance from your styler thanks to its high speed digital brushless motor with 110000 rpm that makes it easy to style your hair in no time.
Reduces frizz: the negative ions released by the AirGlam join with the positive ions that live in your hair and together they help seal in moisture from the root and reduce frizz in your hair.
Intelligent heat control: it allows you not to overheat your hair, taking care of it at all times.
3 temperature settings: take care of your hair by choosing the temperature that suits it best.
3 airflow speeds: regulate the airflow of your styler according to your styling needs.
Cold air function to help fix and seal the hairstyle.
360° cable: enjoy your styler comfortably thanks to its 1.8 m 360° cable and its easy hang-up ring.
Ergonomic design: with multiple premium finishes, the styler will astonish you with both its results and its design.
Filter cleaning: by pressing the temperature button for a few seconds after switching off the styler, the cleaning option is activated, whereby air is blown through the filter to expel all the dirt that has been retained.

CermicCare AirGlam Black

Multifunction 8-in-1 styler with Coanda technology that shapes, curls, styles, dries and eliminates frizz. With 3 speeds, 3 temperatures and intelligent heat control. Digital motor with 1400 of W power and 110000 rpm. Heads with ceramic, keratin and almond oil coating.

FEATURES:

Multifunction styler with 8 heads. Get a greater variety of hairstyles with its different heads: dryer, 33 mm, 40 mm and 70 mm brushes, 2 combs, 2 curling barrels (right and left).
Coanda Technology: the air from the styler tends to follow the surface of the two curling barrels, wrapping the hair around the styler and creating perfect curls effortlessly.
Ceramic coating: the styler has ceramic, keratin and almond oil coated heads that keep hair healthy and shiny, giving strength and elasticity to your hair.
High power: with 1400 W and high speed you can enjoy the best performance from your styler thanks to its high speed brushless digital motor of 110000 rpm which makes it easy to style your hair in a short time.
Reduces frizz: intelligent control with negative ions seals in moisture from the root and reduces frizz in your hair.
Intelligent heat control: it allows you not to overheat your hair, taking care of it at all times.
3 temperature settings: take care of your hair by choosing the temperature that suits it best.
3 airflow speeds: regulate the airflow of your styler according to your styling needs.
Cold-air function to help fix the hairstyle.
360° cable: enjoy your styler comfortably thanks to its 1.8 m 360° cable and its easy hang-up ring.
Ergonomic design: with multiple premium finishes, the styler will astonish you with both its results and its design.
Filter cleaning: by pressing the middle button for a few seconds, the cleaning option is activated, whereby the air is blown out and all the dirt retained in the filter is expelled.

COMPOSITION:

8 heads: dryer, 33 mm, 40 mm and 70 mm brushes, 2 combs, 2 curling barrels (right and left), instruction manual, appliance

CermicCare AirGlam Champagne

Multifunction 8-in-1 styler with Coanda technology that shapes, curls, styles, dries and eliminates frizz. With 3 speeds, 3 temperatures and intelligent heat control. Digital motor with 1400 of W power and 110000 rpm. Heads with ceramic, keratin and almond oil coating.

FEATURES:

Multifunction styler with 8 heads. Get a greater variety of hairstyles with its different heads: dryer, 33 mm, 40 mm and 70 mm brushes, 2 combs, 2 curling barrels (right and left).
Coanda Technology: the air from the styler tends to follow the surface of the two curling barrels, wrapping the hair around the styler and creating perfect curls effortlessly.
Ceramic coating: the styler has ceramic, keratin and almond oil coated heads that keep hair healthy and shiny, giving strength and elasticity to your hair.
Powerful 1400 W high speed motor: enjoy the best performance from your styler thanks to its high speed digital brushless motor with 110000 rpm that makes it easy to style your hair in no time.
Reduces frizz: intelligent control with negative ions seals in moisture from the root and reduces frizz in your hair.
Intelligent heat control: it allows you not to overheat your hair, taking care of it at all times.
3 temperature settings: take care of your hair by choosing the temperature that suits it best.
3 airflow speeds: regulate the airflow of your styler according to your styling needs.
Cold-air function to help fix the hairstyle.
360° cable: enjoy your styler comfortably thanks to its 1.8 m 360° cable and its easy hang-up ring.
Ergonomic design: with multiple premium finishes, the styler will astonish you with both its results and its design.
Filter cleaning: by pressing the middle button for a few seconds, the cleaning option is activated, whereby the air is blown out and all the dirt retained in the filter is expelled.

Reduces frizz: the negative ions released by the AirGlam join with the positive ions that live in your hair and together they help seal in moisture from the root and reduce frizz in your hair. Intelligent heat control: it allows you not to overheat your hair, taking care of it at all times. 3 temperature settings: take care of your hair by choosing the temperature that suits it best. 3 airflow speeds: regulate the airflow of your styler according to your styling needs. Cold air function to help fix and seal the hairstyle. 360° cable: enjoy your styler comfortably thanks to its 1.8 m 360° cable and its easy hang-up ring. Ergonomic design: with multiple premium finishes, the styler will astonish you with both its results and its design. Filter cleaning: by pressing the temperature button for a few seconds after switching off the styler, the cleaning option is activated, whereby air is blown through the filter to expel all the dirt that has been retained. Storage pouch: includes a leather storage pouch for easy organisation of all your heads.

COMPOSITION:

14 heads: Dryer, 33 mm, 40 mm and 70 mm brushes, 2 combs, 2 curling barrels (right and left), volumising comb, detangling brush, concentrator nozzle, retractable bristle brush, diffuser, curling tongs, transport pouch, instruction manual, appliance

HairCare Revitalize brush

Brush your hair with the HairCare Revitalize comb before going to bed to regenerate it from the roots. Improves blood circulation preventing hair loss and strengthening your hair on a daily basis.

LLLT TECHNOLOGY

Healthy hair growth

Low level laser therapy stimulates hair follicles to promote full and healthy hair growth.

BLUE AND RED LED LIGHTS

Regenerates your mane

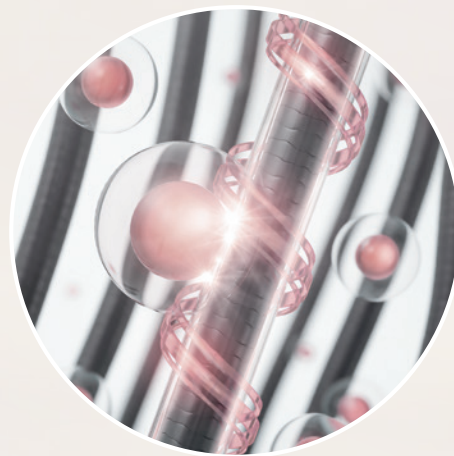

Balances sebum levels to revitalize the scalp and prevent hair loss.

2 MILLION IONS

Soft and silky hair

Enjoy an exceptional finish after every stroke thanks to the brush's 2 million ions that comb through your hair to leave it looking like never before.

ELECTRICAL MUSCLE STIMULATION

Strengthens your hair

Improves blood circulation by strengthening hair follicles for more robust growth.

HairCare Revitalize

Hair care brush with 5 technologies: vibration, negative ions, EMS microcurrents, low level laser therapy (LLLT) and red and blue LED light. No more using conventional brushes! It's time to regenerate hair cuticles.

FEATURES:

Replaces your conventional toothbrush: This brush not only fulfils the functions of a conventional brush, but also provides multiple additional benefits for the health and beauty of your hair.

Five innovative technologies in just one brush: This multifunctional brush integrates five revolutionary technologies that are divided into four different modes: Massage, Oil Control, Revitalize and All-in-one. Each mode is designed to tackle the specific needs of your hair and scalp, offering a personalised hair care experience.

High frequency vibration massage: Enjoy a relaxing massage that soothes the scalp and relieves muscle tension. High frequency vibration is perfect for revitalising your scalp and improving hair health from the root.

Negative ions: This brush emits 2 million negative ions that help comb the hair leaving it smooth and frizz-free. Negative ions also eliminate static electricity, providing a smooth and shiny finish.

EMS microcurrents: EMS microcurrents provide nutrients and stimulate the hair follicles, strengthening the hair roots. They improve circulation, strengthen scalp muscles and help repair damage, resulting in stronger, healthier hair.

Blue LED light: Balances oil levels, refreshing and revitalising the scalp. This technology is especially effective in preventing hair loss.

Low level laser therapy (LLLT) and red LED light: This technology stimulates blood flow to the scalp and activates hair cells. This process promotes hair growth and strengthens hair follicles, improving hair health.

Magnetised brush for easy cleaning: The brush is magnetically attached to the main body, allowing easy removal for cleaning. This feature ensures that you can always keep your brush clean and in optimal condition for use.

Curved design with wide teeth: The curved comb adapts perfectly to the scalp, providing a smooth and comfortable combing experience. The wide teeth ensure that brushing is efficient and tug-free, ideal for all hair types.
