# Portable air conditioners

*Discover the range*

UP TO 3500 FRIGORIES<sup>1</sup>

## Instant cooling.

Our portable air conditioners have a large cooling capacity of up to 3500 frigories<sup>1</sup> that will allow you to quickly and efficiently obtain the desired temperature in any space.

UP TO 30 M<sup>2</sup>

## Full room coverage.

Its large coverage area of up to 30 m<sup>2</sup> allows any space to be completely cooled in no time, creating an unbeatable atmosphere.

HEAT PUMP

## A 2-in-1 for you.

Cool off in summer, warm up in winter. Thanks to its heat pump<sup>3</sup>, you can adjust the temperature of your air conditioner according to the time of the year.

R32 GAS

## Take care of the planet.

In addition to increasing the efficiency and cooling or heating power of the air conditioner, R32 gas is environmentally friendly.

NOISELESS

## Freshness without discomfort.

Our portable air conditioners have a silent operation that allows you to cool down without noise or discomfort.

## DESIGN

### Compact size.

The Style range of portable air conditioners have a small design that makes them easy to place anywhere without compromising your home space.

## TIMER

### No need to switch it off.

Programme the portable air conditioner for up to 24 h. Once the desired time has elapsed, your device will automatically switch off so you don't have to keep an eye to it.

## 3 SPEEDS AND 5 MODES

### Customized configuration.

With 3 speeds and 5 modes<sup>1</sup>, you can set the air conditioning to your liking to perfectly suit every moment.

## WI-FI

### Remote control.

Configure your air conditioner from your smartphone through the Wi-Fi<sup>2</sup> connection.

<sup>1</sup>Speeds and modes may vary depending on the model

<sup>3</sup>Only available on the following models: ForceClima 7500 Soundless Connected, ForceClima 7550 Style Connected, ForceClima 9500 Soundless Heating Connected, ForceClima 9550 Style Heating Connected, ForceClima 12800 Soundless Heating Connected, ForceClima 12850 Style Heating Connected and ForceClima 14800 Soundless Heating Connected.

# ForceClima 7100 Soundless Portable air conditioner

7000 BTU portable air conditioner with remote control.

## FEATURES:

Portable air conditioner with great cooling capacity of 7000 BTU. Thanks to its cooling capacity, it is capable of reaching the desired temperature fast and effectively. Soundless technology. This system provides quieter operation and also reduces possible vibrations to create greater comfort. It has remote control on order for you to comfortably control the device from anywhere in your house. Adapt and set the desired degrees in order to enjoy the perfect temperature in its 20-m2 coverage area. The LED display shows all possible settings and indicates the ones being used at every moment, allowing for an easier control of the air conditioner. The air conditioner has 4 different operating modes: Fan, Cool, Dehumidification and Night. Its 2 speed settings allow adapting its operation to different moments and situations. Choose between Low and High. With its Dehumidification mode it is capable of absorbing a maximum of 20L/day, resulting in a much healthier atmosphere. The timer can be set up to 24 hours. Set the desired operating time and the device will automatically turn off. The air conditioners uses R-290 gas, which is Eco-friendly. Its 780 W allows the air conditioner to cover a 20-m2 and to reach the desired temperature in a short period of time. The air conditioner has a water drainage tube that helps keep it running at every moment. The air filter is capable of stopping the larger particles in the air, improving air quality. Its 360° multi-directional wheels and its handle allow carrying and moving it from room to room easy and effortlessly. Includes window assembly kit.

# ForceClima 9400 Soundless Heating portable air conditioner

9000 BTU portable air conditioner with heat pump and remote control.

## FEATURES:

Portable air conditioner with great cooling capacity of 9000 BTU. Thanks to its cooling capacity, it is capable of reaching the desired temperature fast and effectively. Soundless technology. This system provides quieter operation and also reduces possible vibrations to create greater comfort. The air conditioner's heat pump allows using it during winter to heat rooms. It has remote control on order for you to comfortably control the device from anywhere in your house. Adapt and set the desired degrees in order to enjoy the perfect temperature throughout its 25-m2 coverage area. The LED display shows all possible settings and indicates the ones being used at every moment, allowing for an easier control of the air conditioner. The air conditioner has 5 different operating modes: Fan, Cool, Heat, Dehumidification and Night. Its 2 speed settings allow adapting it to different moments and situations. Choose from low to high. With its dehumidification mode it is capable of absorbing up to 24L/day, resulting in a much healthier atmosphere. The timer can be set up to 24 hours. Set the desired operating time and the device will automatically turn off. The air conditioner also includes oscillation function that helps air being spread in all directions, improving the conditioning of the room. 3 security systems. Anti-frost security (the device turns off when the temperature reaches 0 °C), overfill security system (the device turns off and restarts up when the tank is full) and security compressor that lets the device progressively off, avoiding sudden temperature changes. Its energy class A guarantees moderate energy consumption during operation. The air conditioners uses R-290 gas, which is Eco-friendly. Its 1010 W allows the air conditioner to cover a 25 m2 room. The air conditioner has a water drainage tube to avoid any water accumulation. The air filter is capable of stopping the larger particles. Its 360° multi-directional wheels and its handle make it easy to move from room to room easily and effortlessly. Includes window installation kit.

# ForceClima 12800 Soundless Heating Connected portable air conditioner

Portable air conditioner, 12000 BTU with heating pump and Wi-Fi control. Includes remote control.

## FEATURES:

Portable air conditioner with great cooling capacity of 12000 BTU. Thanks to its cooling capacity, it is capable of reaching the desired temperature fast and effectively. Soundless technology. This system provides quieter operation and also reduces possible vibrations to create greater comfort. The air conditioner's heat pump allows using it during winter to heat rooms. You can set the device as desired from your Smartphone through Wi-Fi connection, no matter where you are. It has remote control on order for you to comfortably control the device from anywhere in your house. Adapt and set the desired degrees in order to enjoy the perfect temperature throughout its 28-m2 coverage area. The LED display shows all possible settings and indicates the ones being used at every moment, allowing for an easier control of the air conditioner. The air conditioner has 5 different operating modes: Fan, Cool, Heat, Dehumidification and Night. Its 3 speed settings allow adapting it to different moments and situations. Choose between low, medium, or high. With its dehumidification mode it is capable of absorbing up to 26L/day, resulting in a much healthier atmosphere. The timer can be set up to 24 hours. Set the desired operating time and the device will automatically turn off. The air conditioner also includes oscillation function that helps air being spread in all directions, improving the conditioning of the room.

# ForceClima 12850 Style Heating Connected

12000 BTU design portable air conditioner with heat pump for year-round use and Wi-Fi control, touch panel and remote control for total comfort.

### FEATURES:

- Portable air conditioner with great cooling capacity of 12000 BTU, equivalent to 3000 frigories. Get the desired temperature in the room where you are quickly and efficiently.
- Large coverage area: adapts and modifies the room temperature by up to 28 m2.
- Air conditioning heat pump: use it also in winter in order to increase the temperature of the room in which it is placed.
- Wi-Fi connection: enjoy full control of the device via your smartphone wherever you are.
- Remote control included: control the air conditioner conveniently from any place. In addition, its touch control panel allows you to control the operation of the air conditioner conveniently and easily.
- LED display: check all possible settings at a glance on its LED display.
- 5 operating modes: Fan, Cool, Heat, Dehumidification and Sleep.
- 2 air conditioning speeds that allow it to adapt its operation to any situation. You can choose between Low speed and High speed.
- Dehumidification mode: capable of capturing up to 29 litres per day for a healthier home environment.
- Timer: programme the operating time of the air conditioner for a maximum of 24 hours. After the time has elapsed, the air conditioner will switch itself off.
- R-290 gas: environmentally friendly and low polluting.
- 360° multidirectional wheels: move the air conditioner from one room to another easily, comfortably and with little effort.
- Accessories: window installation kit included.

# Couplings for portable air conditioners

*Discover the range*

## 100 % polyester.

Choose the size that best suits your preferences and enjoy the best quality couplings made entirely of polyester to ensure greater strength and durability.

## Perfect sealing.

Thanks to its zipper and adhesive tape, our couplings are perfectly insulated from the outside, preventing the entry of hot, cold or humid air.

## What type of coupling do you need?

Choose from our couplings and enjoy an air conditioner that meets all your needs.

- Sliding window couplings
- Tilt and turn window couplings
- Sliding door couplings

<sup>1</sup>The dimensions of the couplings may vary depending on the model.

# Insulation cover 163x35

Insulated sliding window covering 163 x 35 cm for portable air conditioners.

## FEATURES:

Ideal for your windows: the 163 x 35 cm dimensions of the insulation cover are ideal for your home's windows.  
100% polyester: made entirely of polyester for strength and durability.  
Insulates from the outside: prevents the return of hot air and humidity from the outside.  
Perfect seal: includes zip and tape to ensure a tight seal and prevent the entry of outside elements.

# INVERTER SYSTEM

## INVERTER SYSTEM

### Money and energy efficiency

Inverter system, which maximises the air conditioning's compressor efficiency as it adjusts its operation to a steady speed and temperature, increasing its lifespan.

## 9000 BTU

### Great cooling capacity

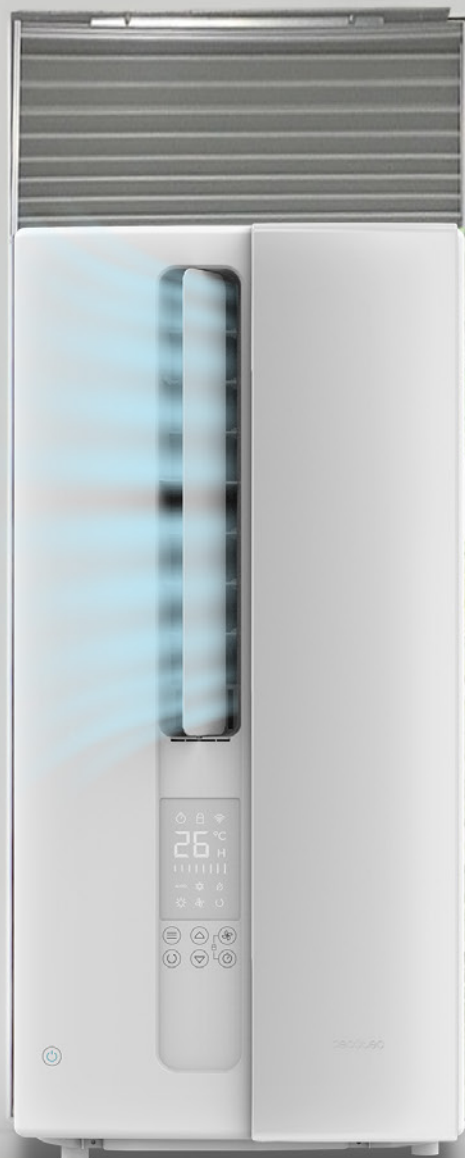

Our window air conditioners have a large cooling capacity of 9000 BTU. Get the desired temperature in the room where you are in a quick and efficient way.

## UP TO 22M<sup>2</sup>

### Create custom, acclimated spaces

The air conditioner allows to adapt and modify the temperature of the room to the desired degrees. Its high airflow rate of 390 m<sup>3</sup>/h provides a large flow of cool air to achieve the desired temperature at home.

#### REMOTE CONTROL

### Remote control

Remote control included: control the air conditioner conveniently from any place. In addition, its touch control display allows you to control the operation of the air conditioner in a convenient and easy way.

#### TIMER

### Set the timer and forget about the rest

Programme your air conditioner for a maximum of 24 hours. Once the time is up, it will automatically switch off.

#### 5 MODES

### Tailored operation

With the 5 ventilation modes, you can adapt the air conditioner to all your needs.

- Automatic
- Cooling
- Ventilation
- Dehumidification
- Sleep

# Windowclima 9000 Inverter

9000 BTU Inverter window air conditioner with remote control, touch control and LED display.

## FEATURES:

Innovative design with simple, space-saving window installation, uncomplicated installation, convenient, elegant and revolutionary.

Window air conditioner with a large cooling capacity of 9000 BTU equivalent to 2250 frigories. Thanks to its cooling capacity, it is capable of reaching the desired temperature fast and effectively.

Inverter system, which maximises the air conditioning's compressor efficiency as it adjusts its operation to a steady speed and temperature, increasing its lifespan.

Its large coverage area of 22 m<sup>2</sup> makes it possible to adapt and modify the temperature of the room to the desired degree. Its high airflow rate of 390 m<sup>3</sup>/h provides a large flow of cool air to achieve the desired temperature at home.

Remote control included: control the air conditioner conveniently from any place. In addition, its touch control panel allows you to control the operation of the air conditioner conveniently and easily. LED display: check all possible settings at a glance on its LED display.

Its 5 operating modes (automatic, cooling, fan, dehumidification and sleep) allow adapting it to every moment and season of the year.

The timer can be set up to 24 hours. Set the desired operating time and the device will automatically turn off.

Dehumidification mode: capable of capturing up to 28.8 litres per day for a healthier home environment.

R-290 gas: environmentally friendly and low polluting.

The air conditioner features a moving and oscillating flap that allows the air direction to be selected and assists in the air distribution process.
