POWER UP TO 2400 W

Enjoy their power

The Cecotec fan heaters reach a power of up to 2400 W¹ to achieve a warmer atmosphere in the room where you want to place them.

3 OPERATING MODES

They adapt to you

Choose between Cool, Warm and Hot modes and always keep your room at the desired temperature.

COVERAGE AREA

It covers the whole room

They are ideal for acclimatising your rooms, thanks to their coverage area of up to 20 m².

THERMOSTAT KNOB

Set the ideal temperature

They feature a thermostat knob with which you can select between two power levels, so that you can set the desired intensity at any time.

Ready Warm 9790 Force fan heater

Fan heater, 2000 W, 2 power levels and 3 operating modes.

FEATURES:

Fan heater with 2000 W of power to achieve a warmer atmosphere in the room in which it is placed.
Up to 15 m² coverage area, equal to a volume between 35 and 40 m³. Perfectly suitable for living rooms, bedrooms, bathrooms.
It has an adjustable thermostat that allows selecting between its 2 power levels; 1000 W and 2000 W.
3 operating modes: Fan mode, Eco mode (1000 W) and Turbo mode (2000 W). It adapts to your needs.
Its silent operating (just 30 dB at maximum power) allows using the fan heater during rest times, for example when reading or watching TV.
It has a handle on its back side, and together with its lightweight, allows moving it easily and comfortably. It is also extremely stable, preventing it from tipping over and from falling.
It counts on 2 knobs that allow the user to select power and operating modes easily.
It features a triple security system: auto shut-off, protection against tipping over or overheating, and grid that prevents finger from being inserted inside the device.

COMPOSITION:

Instruction manual, fan heater

Ready Warm 9870 Smart Rotate fan heater

Fan heater, 2000 W, oscillation, display, timer, 2 power levels and 3 operating modes.

FEATURES:

Fan heater, 2000 W, creates warm atmospheres in rooms of 15 m² approx., or between 35 and 40 m³ such as living rooms, bedrooms or bathrooms.

It oscillates up to 60°, distributing heat evenly across the whole room.

The fan heater has an LCD display where the user can view settings, operating modes, timer and the rest of functions.

It has an adjustable thermostat that allows selecting between its 2 power levels; 1000 W and 2000 W.

3 operating modes: Fan mode, Eco mode (1000 W) and Turbo mode (2000 W). It adapts to your needs.

Its silent operating (just 30 dB at maximum power) allows using the fan heater during rest times, for example when reading or watching TV.

Thanks to its lightness, the fan heater can be moved around the house comfortably. It is also extremely stable, preventing it from tipping over and from falling.

It features a triple security system: auto shut-off, protection against tipping over or overheating, and grid that prevents finger from being inserted inside the device.
