Robot lawn mower

Discover the range

Effortless daily maintenance

Delimit the cutting area, connect to your Conga from the app and that's it! The robot will mow the lawn to your liking while you enjoy your garden.

APP CONTROL

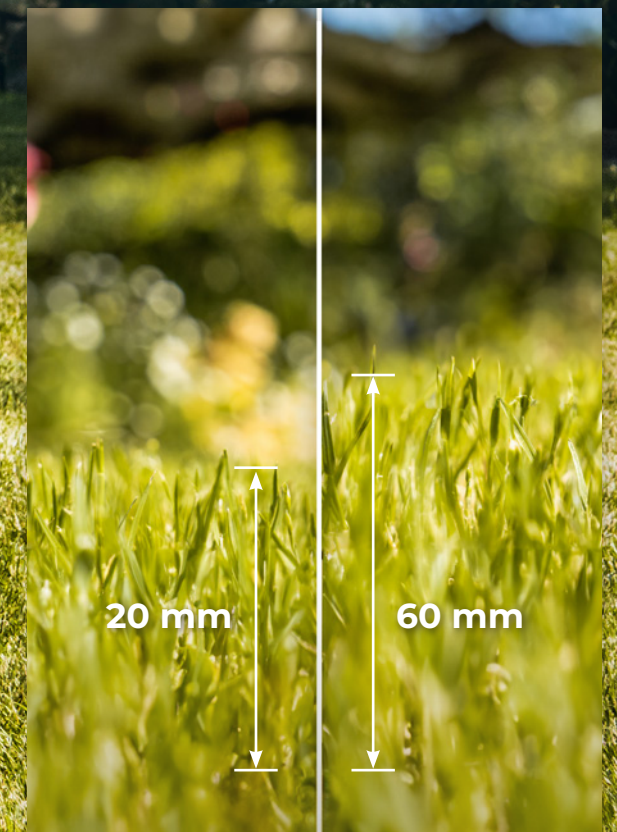

Total control from your phone

Programme the robot with the Conga GrassHopper app wherever you are and relax. The robot will operate within the marked area completely independently following the chosen cutting length.

CUT SYSTEM

Mow your lawn to your liking

The height of cut can be adjusted between 20 and 60 mm¹, with a cutting width of 180 mm, so that the lawn is always perfect without you having to do anything. Easy, fast and convenient.

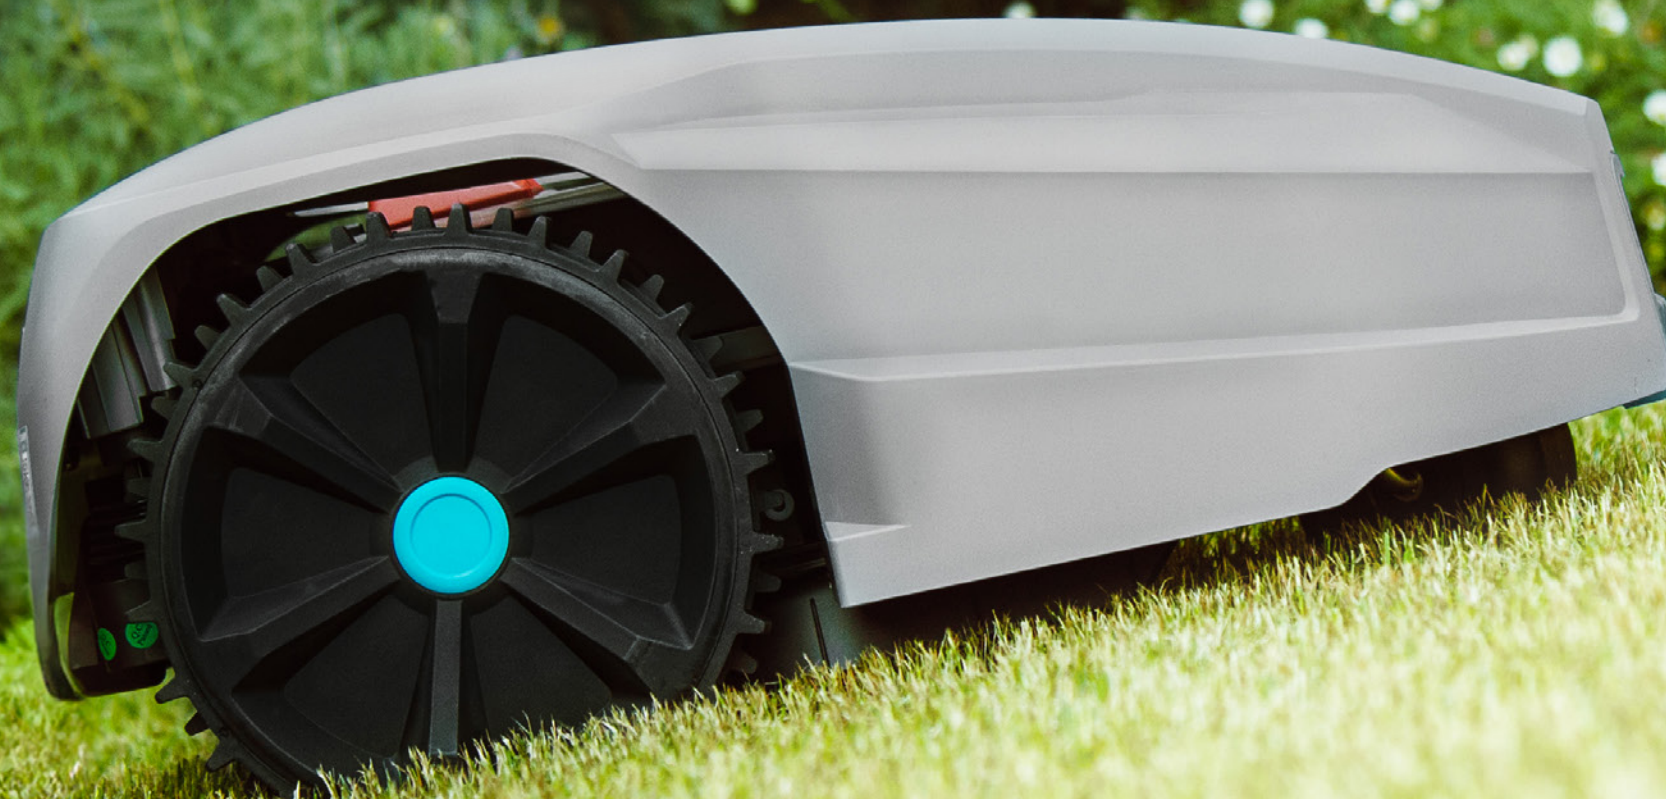

Fits in your garden

LITHIUM ION BATTERY

Covers up to 800 m²

Delimit the cutting area with the boundary wire of up to 170 metres and enjoy a range of action covering a maximum area of 800 m².

FLOATING CUTTING SYSTEM

Overcoming obstacles

This technology allows the robot to regulate the height of the blades according to the unevenness of the terrain. In addition, the robot is able to overcome slopes of up to 35%.

Designed to last

BRUSHLESS MOTOR

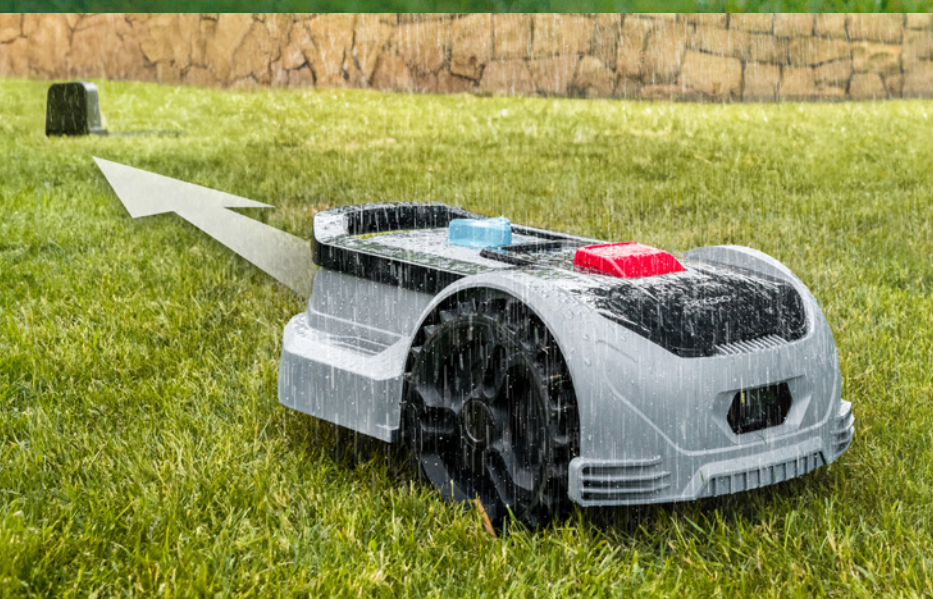

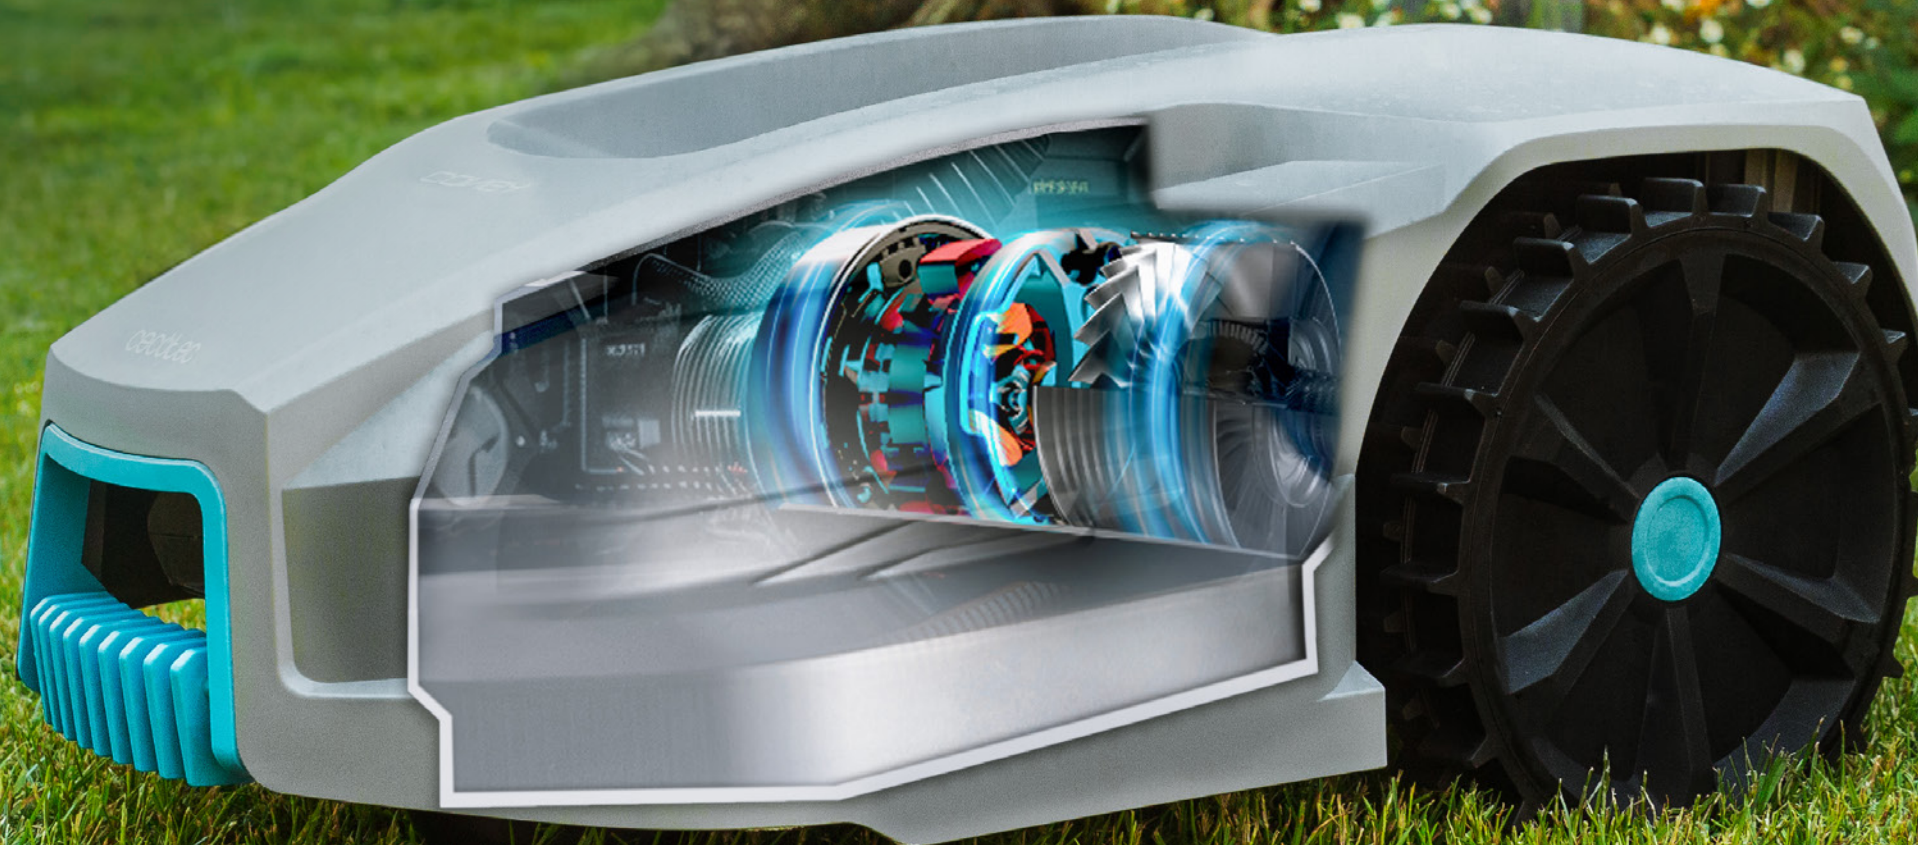

Efficient and quiet

The robot is equipped with a state-of-the-art motor that enables it to achieve perfect results. It is also quiet in operation so you can enjoy your garden while Conga works.

IPX5 PROTECTION

Waterproof

It is designed with IPX5 protection so that water and sunlight do not affect its performance. If it rains, the robot detects it and returns to its base, resuming mowing when its rain sensor is dry.

Conga GrassHopper 300

Conga GrassHopper 300 robot lawn mower. Digital Brushless motor. For surfaces up to 300 m². Maximum slope of 27%. Cutting height adjustment. Rain sensor. Plug&Play technology.

FEATURES:

Smart robot lawn mower: keep your lawn neat every day automatically and worry-free. The robot mows the lawn within the area you delimit with the boundary wire.

Thanks to its 100 metre boundary wire, the robot covers a maximum surface area of 300 m².

Digital Brushless: state-of-the-art digital motor that allows an excellent lawn finish in an efficient and quiet way, emitting a noise level of only 61 dB.

Floating Cutting System: the blades adapt to the unevenness of the surface. The robot is able to overcome slopes of up to 27%.

Cutting height regulator: choose the cutting height between 20 and 50 mm. The cutting width is 160 mm.

Plug&Play technology: the robot is programmed to take care of your lawn from Monday to Friday, focusing on the edges two days a week. Switch it on and relax.

IPX5 protection, waterproof and UV protection.

Digital display and touch panel: control the robot thanks to its touch button panel and, if you prefer, you can lock the robot with the PIN code of your choice.

Rain sensor: the robot automatically returns to the charging station when it rains.

Large battery: 2000 mAh, 20 V lithium-ion battery.

COMPOSITION:

Robot lawn mower, 100 m boundary wire, 130 wire pegs, 9 blades, charging station, instruction manual

Conga GrassHopper 500 Connected

Conga GrassHopper 500 robot lawn mower. Digital Brushless motor. For surfaces up to 500 m². Maximum slope of 27%. Cutting height adjustment. Rain sensor. APP control.

FEATURES:

Smart robot lawn mower: keep your lawn neat every day automatically and worry-free. The robot mows the lawn within the area you delimit with the boundary wire.

Thanks to its 130 metre boundary wire, the robot covers a maximum surface area of 500 m².

Digital Brushless: state-of-the-art digital motor that allows an excellent lawn finish in an efficient and quiet way, emitting a noise level of only 61 dB.

Floating Cutting System: the blades adapt to the unevenness of the surface. The robot is able to overcome slopes of up to 27%.

Adjustable cutting height: choose the cutting height between 20 and 50 mm, with a cutting width of 160 mm.

App control to programme and select the cutting height using the CECOTEC APP from any place.

IPX5 protection, waterproof and UV protection.

Digital display and touch panel: control the robot thanks to its touch button panel and, if you prefer, you can lock the robot with the PIN code of your choice.

Rain sensor: the robot automatically returns to the charging station when it rains.

Large battery: 2000 mAh, 20 V lithium-ion battery.

COMPOSITION:

Robot lawn mower, 130 m boundary wire, 180 wire pegs, 9 blades, charging station, instruction manual

Conga GrassHopper 800 Connected

Conga GrassHopper 800 Connected robot lawn mower. Digital Brushless motor. For surfaces up to 800 m2. Maximum slope of 35%. Cutting height adjustment. Rain sensor. APP control.

Robot pool cleaner

Discover Pooldroid

The best robot for your pool

Keep your pool clean in the most comfortable way. Switch on Conga, drop it to the bottom and that's it!

Wireless and autonomous cleaning

The robot traps dirt from the bottom of the pool, removing dust, stains and even leaves. All with a wireless design so you can take a swim while Conga cleans.

100-minute autonomy

Enjoy a complete cleaning in a single run thanks to its autonomy of up to 100 minutes, which allows it to cover up to 80 m².

AUTOPARKING

Pull it out effortlessly

Forget about hooks, the robot has an autoparking system to get closer to the edge once it has finished cleaning, and a floating cable to make it even easier to remove.

ALL SURFACE

Suitable for all types of pools

Chlorinated water? Salt water? No matter what, the robot can dive into either type of water and leave a perfect pool bottom regardless of the type of ground.

Conga Pooldroid 1000 FloorMaster

Wireless robot pool cleaner. Suitable for surfaces up to 80 m² and 10° of inclination. 100 minutes of autonomy. Floating cable to keep your robot within reach at all times. High-efficiency filter. Accessories included.

FEATURES:

Robot pool cleaner: keep your pool clean autonomously. Turn it on, throw it in the water, and the robot will clean for you while you relax.
Cordless technology: say goodbye to cables and hoses inside your pool.
Long autonomy: enjoy its autonomy of up to 100 minutes to clean your entire pool in one go.
Self-parking: the robot approaches the pool wall when it runs out of battery and, thanks to its floating cable, you can remove it without any hassle.
Covers a large area: the robot pool cleaner is suitable for pools up to 80 m² and is able to overcome slopes of up to 10°.
Ultra lightweight: easy storage and handling thanks to the compact design of this robot.
All surface: the robot is suitable for both chlorine and saltwater pools, as well as for all types of floors.
EasyClean: thanks to its design, you can disassemble, clean and reassemble the robot in an instant.

COMPOSITION:

Robot pool cleaner, floating cable, adapter, 6 brushes, 4 wheels, instruction manual
