3 motor types for all hair types

Explore our 3 different motors and find out which hairdryer best suits your hair.

DC MOTOR

Energy-efficient motor.

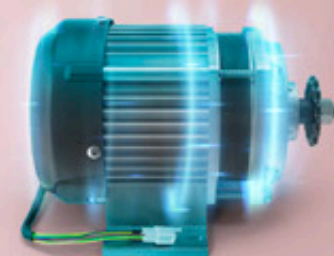

The DC motor favours low power consumption due to its lower air flow compared to other motor types. This type of motor is ideal for fine and frizz-free hair that dries easily.

AC MOTOR

Powerful and effective.

With a high airflow, the AC motor is powerful enough to dry all types of hair and is easy to use over a long period of time thanks to its long lifespan.

BRUSHLESS MOTOR

Digital, lightweight and durable.

The Brushless motor is more powerful, durable and quieter than other hairdryers with other types of engines. Ideal for voluminous manes and thicker hair thanks to its fast and even drying time. Enjoy a gentle and practical blow-dry on a daily basis.

DC motor hairdryers

DC MOTOR

Efficiency, savings and dazzling results

Perfect power

Not all manes need the same drying power. Discover our DC hairdryers with a power range from 2000 to 2500 W and enjoy efficient and even drying on all hair types.

IONREAL

Frizz-free drying

Our IonReal technology projects negative ions onto the hair during drying. In this way, it counteracts the positive ions naturally present in the hair, eliminating frizz and leaving your mane radiant and manageable.

Accessory kit

DC motor hairdryers have different nozzles that allow you to style your hair easily. Use the diffuser to curl your hair or straighten it with the concentrator nozzle.

Practical use

Our DC motor hairdryers are a convenient and practical option thanks to their innovative folding mechanism¹ that allows you to store or bring them with you wherever you go.

¹Not available on IoniCare 5200 Aura, IoniCare 5200 Aura Black and IoniCare Radiance models.

Discover the DC motor hairdryer range

Bamba IoniCare Power&Go Heaven

Travel hair dryer with 2200 W, 2 temperatures, 2 speeds, cold air button, concentrator nozzle and diffuser.

FEATURES:

High power: it has a 2000 W motor, which dries hair quickly and efficiently.

Travel dryer: designed to be easy to carry and store in your suitcase, handbag or backpack without worries.

Precision nozzle and diffuser: includes a concentrator nozzle to help perfect your hairstyles, as the air comes out much stronger and more directed, and a diffuser to take care of your curls wherever you go.

Our hair dryer features Hair Care technology, which protects your hair against overheating, ensures hair protection, brightness and flexibility and avoids colour loss.

Adapts to your hair: 2 speed and temperature settings to suit all hair types.

Seals the cuticle: blow-drying your hair with cold air helps to seal the cuticle and prevent breakage.

Easy to clean: the filter of our dryer is very convenient and easy to clean thanks to the removable rear grille. It also extends the lifespan of the dryer and allows it to operate at optimum levels.

Hang it wherever you want: it comes with a strong ring to hang the dryer anywhere, when not in use or to store it without taking up extra space.

COMPOSITION:

1 concentrator nozzle, diffuser, instruction manual, product

GARANTÍA:

 21.5 x 10 x 29 cm 0.85 kg
45 x 30 x 31 cm 5.53 kg

 8.5 x 18 x 27 cm 0.65 kg

 220-240 ~ V 50-60 Hz

IoniCare &Go Glow

Foldable hair dryers with 2200 W power, cold air, nozzle and diffuser.

FEATURES:

2200 W motor: dries your hair in the shortest possible time and more efficiently.
Frizz-free: the Royal Ion it incorporates eliminates static electricity from the hair, leaving it shiny, smooth and frizz-free.
Store it wherever you want: foldable dryer to make it easier to store and transport, saving space for storage without losing the power of a traditional dryer.
Ultra-shiny finish: our dryer improves cuticle sealing, leaving an ultra-shiny finish and styling your hairstyle.
Precision nozzle: it has a concentrator nozzle that helps to perfect and straighten your hairstyles, as the air comes out with much more intensity.
Curls and volume: the included diffuser helps to form waves and curls with more volume and definition, giving your hair a perfect finish.
Take care of your hair: thanks to its Hair Care technology, our hairdryer protects your hair against overheating to make sure it stays protected, flexible and shiny.
Perfect cuticle: the cold air function helps to seal the cuticle and prevent breakage.
Easy to clean filter: the hair dryer's filter is very useful and easy to clean, as the back grid can be removed. It also extends the lifespan of the dryer and allows it to operate at optimum levels.
It adapts to you: it has 2 speed settings and 3 temperature settings, adapting to any type of hair.
Hang it wherever you want: it comes with a strong ring to hang the dryer anywhere, when not in use or to store it without taking up extra space.

COMPOSITION:

IoniCare Radiance

DC hair dryer with 2500 W, ion technology and high airflow rate.

FEATURES:

Powerful motor: take advantage of its powerful new generation motor with 2500 W for fast and even drying.
Real Ion: makes hair look shinier, hydrated and enhances anti-frizz.
High air flow: dries hair quickly and uniformly with high airflow.
Pro Style: looks after your hair by improving cuticle sealing for an ultra-shiny, colourfast finish.
Precision nozzle: get a long-lasting, flawless finish.
More volume, perfect curls: it features a diffuser that helps to obtain a natural maximum volume at the roots and define curls easily with a professional and long-lasting finish.
HairCare technology: protects hair against overheating.
Cool air function: gives extra hold to your hairstyle to keep it perfect and durable for a longer period of time.
Total control: with temperature and speed adjustment, you can choose the ideal settings for your hair and style. It has two speed settings and three temperature settings.
Freedom of movement: 1.8 m of cable so you can use the hair dryer comfortably anywhere, with total freedom of movement.
Easy to clean filter: the hair dryer's filter is very useful and easy to clean, as the back grid can be removed. It also extends the lifespan of the dryer and allows it to operate at optimum levels.
Hang it wherever you want: it comes with a strong ring to hang the dryer anywhere, when not in use or to store it without taking up extra space.

COMPOSITION:

IoniCare 5250 EasyCollect Pro

Folding DC hair dryer, 2100 W, with cord-winding function and real ion.

FEATURES:

Powerful new generation professional motor with 2100 W for fast and even drying of the hair. Thanks to the cord storage function, storing the dryer will be easier and more convenient, as it collects and stores the cord inside the dryer at the touch of a button.

Real ion. Thanks to the real ion, it makes your hair look shinier, more moisturised, and also enhances your hair's natural anti-frizz properties. Show off hairdresser looks.

Thanks to the foldable handle, our hairdryer takes up less space and is more convenient to store and travel with.

High airflow to dry hair quickly, it does not damage the colour and shine of your hair, and it shapes it without drying it out.

Pro Style. Takes care of your hair while drying, improving cuticle sealing for an ultra-shiny, colour-fast finish.

Enjoy professional and long-lasting hairstyles as if they were done by real hair dressers; straight and silky.

The diffuser included with the hair dryer is ideal for obtaining greater and more natural roots volume and to define curls professionally.

HairCare technology. Thanks to its system, it manages to maintain a constant temperature throughout the drying process so that your hair is protected and remains shinier and more flexible.

Cool-shot function. The cold air button, used after styling, provides a real flow of cold air that gives extra hold to the style to make it lasts longer.

Total control. Adjust it to your hair requirements thanks to its temperature and speed settings. It has 2 speed settings (Turbo/Medium) and 3 temperature settings (Hot/Medium/Cool).

The filter is very convenient and easy to clean thanks to the removable rear grille. Also, it extends the life of the dryer and allows it to operate at optimum levels.

It includes a resistant ring to hang the dryer or to store it while it is not used.

AC motor hairdryers

AC MOTOR

Power, speed and unique finishes

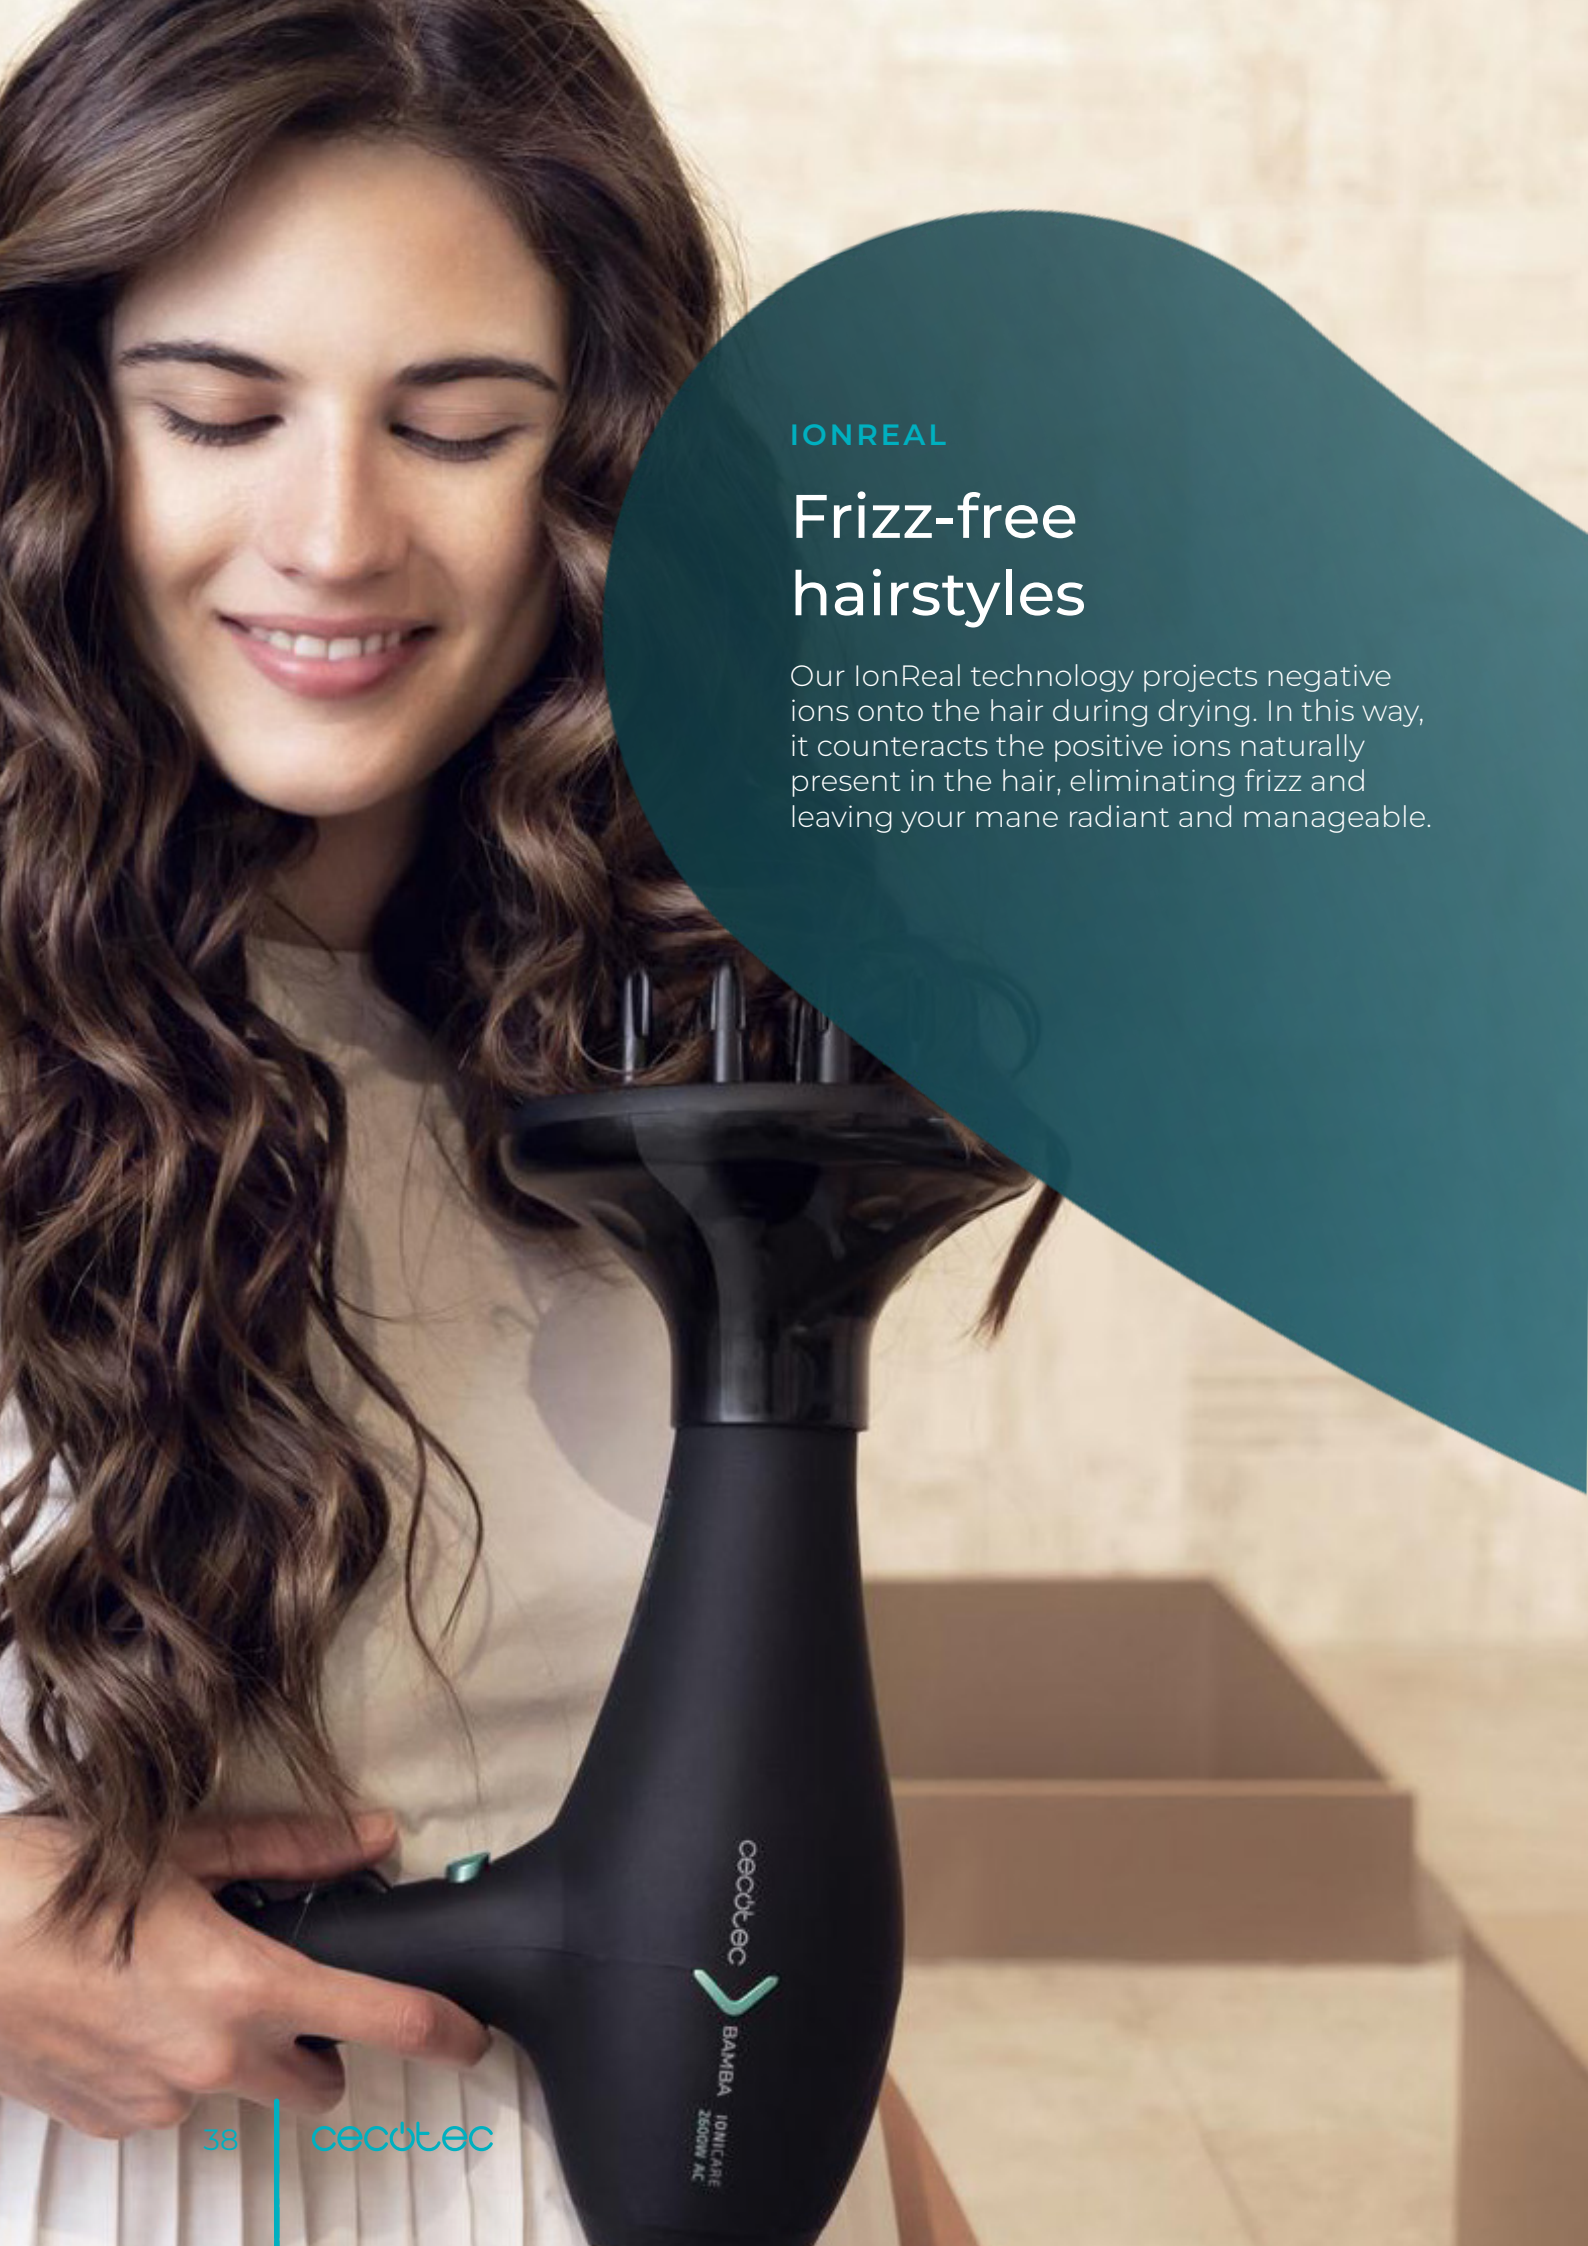

Much more than a hairdryer

Configure the hairdryer to suit your needs. Choose between its 2 speeds and 3 temperature settings and enjoy a totally personalised drying experience.

Great air flow

Dry the thickest hair in the most effective way. Our AC hairdryers with a massive 2600 W of power will get rid of the humidity in your hair without wasting your time.

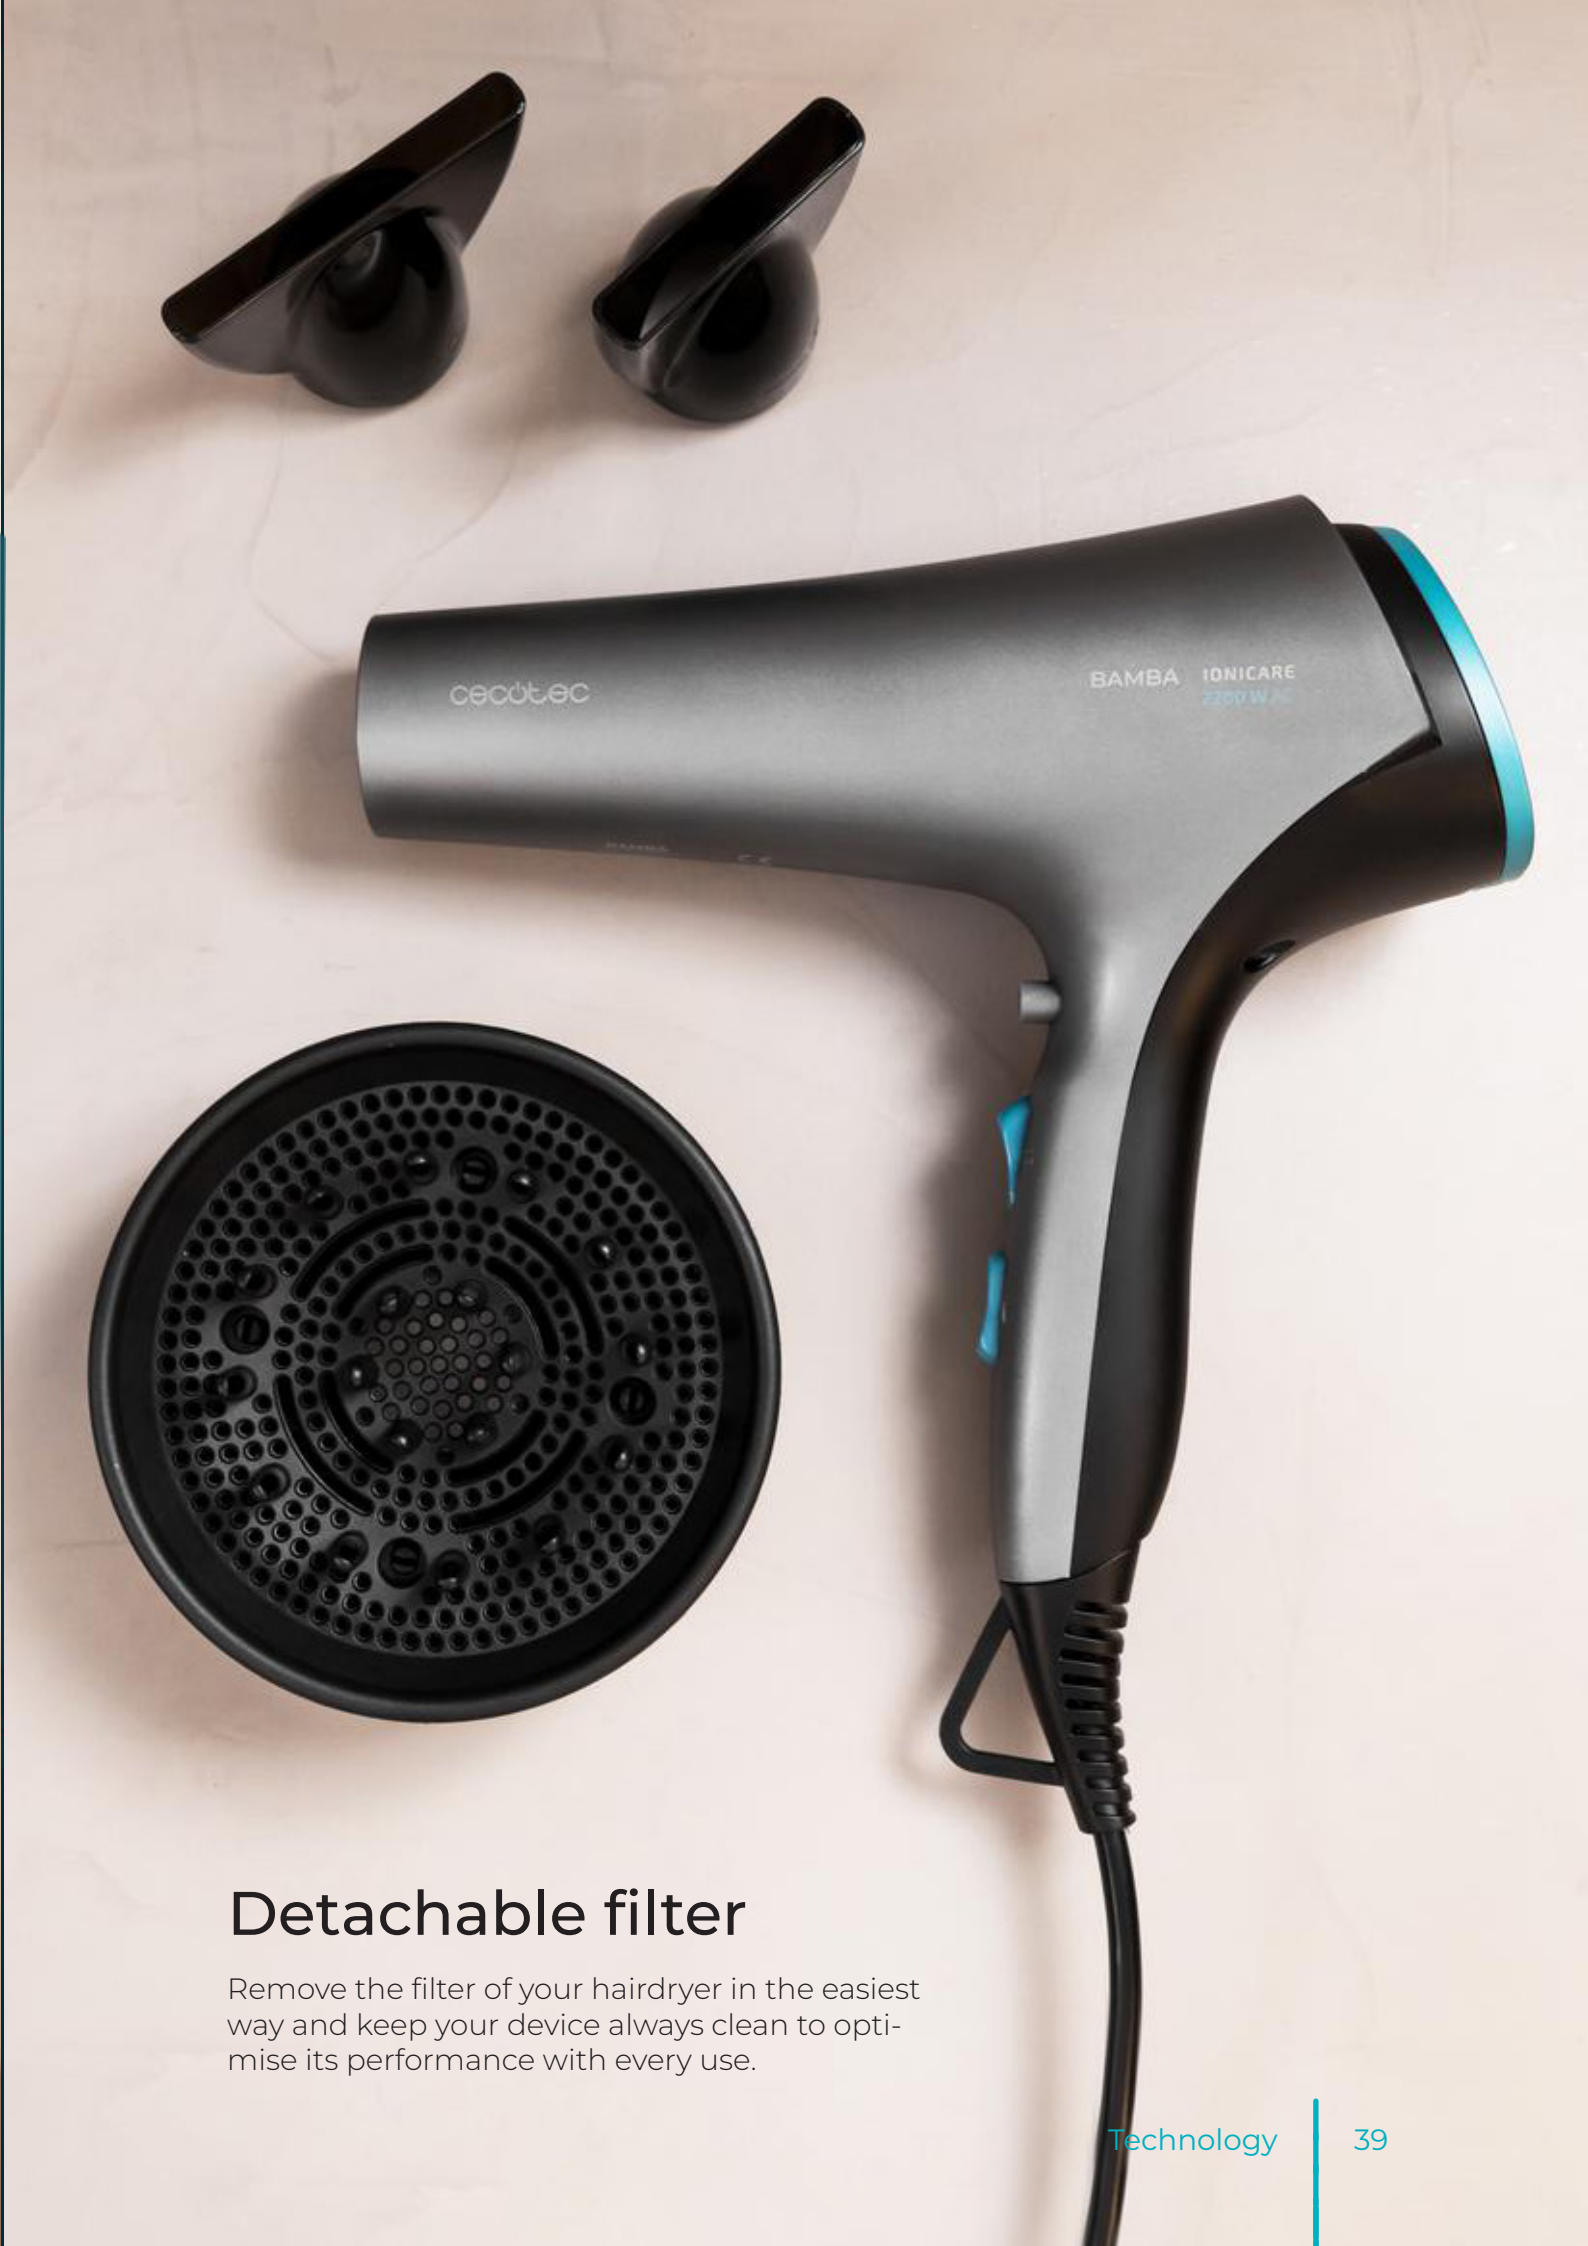

IONREAL

Frizz-free hairstyles

Our IonReal technology projects negative ions onto the hair during drying. In this way, it counteracts the positive ions naturally present in the hair, eliminating frizz and leaving your mane radiant and manageable.

Detachable filter

Remove the filter of your hairdryer in the easiest way and keep your device always clean to optimise its performance with every use.

Discover the AC motor hairdryers range

IoniCare 5300 Maxi Aura

AC ionic hair dryer, 2200 W, and great flow rate.

FEATURES:

The new-generation, professional and powerful AC motor, 2200 W.

Real Ion: Act on hair leaving it shinier and more moisturised. They also enhance natural hair's anti-frizz features.

Thanks to its great air flow rate, hair dries fast and evenly, and colour and brightness are not damaged.

Pro Style: Takes total care of your hair by sealing cuticles, resulting in ultra-shiny finish.

Includes precision nozzle for precise drying and total volume control.

The maxi-volume diffuser offers greater volume for your roots and achieves more defined, flexible and natural curls. Professional results.

HairCare technology. Its protection against overheating system ensures an always-safe hair and guarantees your hair will not lose shine and will remain flexible.

Cool-shot function. The cool air flow helps prevent hair damage by sealing cuticles rapidly.

FEATURES:

Powerful and professional AC motor, with latest-generation technology and 2200 W for fast and even hair drying.
Real ion. Real ions act on hair leaving it shinier and more moisturised. They also enhance natural hair's anti-frizz features.
Thanks to its great air flow rate, hair dries fast and evenly, and colour and brightness are not damaged.
Pro Style. It includes a total care system that improves the sealing of cuticles, resulting in ultra-shiny finish.
Includes 2 precision nozzles for precise drying and total volume control, for your hairstyles to look professional.
The maxi-volume diffuser offers greater volume for your roots and achieves more defined, flexible and natural curls. Professional results.
HairCare technology. Protection against overheating system that ensures an always-safe hair and guarantees your hair will not lose shine and will remain flexible.
Cool-shot function. The cool air flow helps preventing hair damage by sealing cuticles rapidly, and moreover helps your hairstyles look perfect for longer.
Total control. Adjust it to your hair requirements thanks to its temperature and speed settings. It has 2 speed settings (Turbo/Medium) and 3 temperature settings (Hot/Medium/Cool).
It includes a 2.5-metre cord that allows a more comfortable use wherever you are. No worries or limits of moves.
Removable back grid for an easy and comfortable filter cleaning. This will lengthen the hair dryer's service life and will allow it to operate at peak performance for longer.
It includes a resistant ring to hang the dryer or to store it while it is not used.

Ionicare 5500 Powerstyle

Design hair dryer with AC motor, great flow rate and PerfectColour system.

FEATURES:

Built-in powerful AC motor, powerful, last-generation and 1800 W.
PerfectColour function. Includes a special position that applies instant and constant cool shot, providing full protection against hair overheating and avoiding coloured hair from heating and drying in excess, preventing hair damage and maintaining colour and brightness.
Real Ion: IoniCare 5500 PowerStyle emits real ions during hair drying, resulting in much shinier, moisturised hair, and enhancing natural anti-frizz properties.
The powerful flow rate dries hair fast and evenly, and does not damage colour and brightness.
Pro Style. Specific function that takes total care of your hair by sealing cuticles, resulting in ultra-shiny finish.
Includes 2 precision nozzles, ideal for precise drying and total volume control, for your hairstyles to look professional.
The professional maxi-volume diffuser included offers greater volume for your roots and achieves more defined and natural curls. Professional results.
It includes a 2.5-metre cord that allows a more comfortable use wherever you are. Complete freedom and no limits of moves.

BLDC motor hairdryers

BRUSHLESS MOTOR

Achieve long-lasting and damage-free hairstyles in a single pass

IONREAL

Shiny haircare.

Our IonReal technology projects negative ions onto the hair during drying. In this way, it counteracts the positive ions naturally present in the hair, eliminating frizz and leaving your mane radiant and manageable.

WATER ION

Moisturising drying.

Thanks to the water ion generator, the hairdryers condense moisture during drying, thus moisturising your hair without damaging it with heat.

PLASMA

The future of anti-frizz.

The Plasma mode¹ compensates the humidity level by combining positive and negative ions that restore the hair's natural moisture and control frizz, leaving a silky, nourished and sleek mane.

Magnetic accessories.

Shape your hair with our brushless hairdryers and their innovative magnetic attachments. Curl your hair with the diffuser or eliminate waves and straighten your mane with the two concentrator nozzles².

¹Only available on the IoniCare RockStar Nano IonTech model.
²Only available on Bamba IoniCare 6000 RockStar Vision and Bamba IoniCare RockStar Ion Touch models.

Discover the BLDC motor hairdryers range

IoniCare 6000 RockStar Essence

Hair dryer with digital motor and real ion.

FEATURES:

Digital Motor, 2200 W, optimises drying power with a steady air flow.

Its 5 temperature and speed settings adapt air flow and temperature, allowing total control whilst drying all types of hair.

Thanks to its digital motor, this hair dryer is extremely light and silent. Friction is reduced, noise is decreased and its weight is lightened as bristles are removed.

The digital motor is much more powerful and efficient, it is capable of generating greater air flows and of making the most out of its power, reducing the time required to dry hair.

The ion generator enhances the hair's natural brightness, leaves it shiny, reduces static electricity and reduces hair frizz.

The Cool shot function maintains hairstyles for longer and results with more professional looks.

Includes diffuser attachment for greater volume and more defined curls, and a concentrator attachment for defining hairstyles and straightening hair.

1.8-metre cord included for a better usability and greater comfort.

Perfect care and protection. Features an advanced protection system that protects hair against high temperatures and prevents the hair dryer from overheating, preserving your hair's natural beauty.

Removable grid for easy cleaning, guarantees long-lasting top performance.

COMPOSITION:

1 concentrator nozzle, diffuser, instruction manual, appliance

9.8 x 29 x 33.4 cm 1.15 kg
59.9 x 34 x 32 cm 7.7 kg

18 x 9 x 27 cm 0.64 kg

IoniCare 6000 RockStar Vision

Hair dryer with digital motor, real ion and LCD display.

FEATURES:

Brushless Digital Motor that optimises drying power with a steady air flow.
LCD display that shows the ionizing function and operating temperature for a complete control of the drying process.
Thanks to its Brushless Digital Motor, this hair dryer is light and silent. Friction is reduced, noise is decreased and its weight is lightened as bristles are removed.
The cutting-edge Brushless Digital Motor is much more powerful and efficient, it is capable of generating greater air flows and of making the most out of its power, reducing the time required to dry hair.
The ion generator enhances the hair's natural brightness, leaves it shiny and manageable thanks to the reduction of static electricity.
The Cool shot function maintains hairstyles for longer and results with more professional looks.
Its adjustable speed setting and 3 preset temperature allow adjusting air flow and temperature, for a total control when drying any type of hair.
Includes diffuser attachment for greater volume and more defined curls, and a concentrator attachment for defining hairstyles and straightening hair.

COMPOSITION:

1 concentrator nozzle, diffuser, instruction manual, appliance

-  32.5 x 12 x 37.5 cm 2.4 kg
66.7 x 40 x 50 cm 20.65 kg
-  21 x 8 x 26.5 cm 0.55 kg

IoniCare 6000 RockStar Soft

Hairdryer with digital motor and real ions, Extreme Protect and self-clean function.

FEATURES:

The new optimised digital motor of low consumption allows for a constant and powerful air flow of 1200 W, which turns it into an ECO hair dryer, but powerful too.
The negative ion generator enhances the hair's natural brightness, leaves it shiny, reduces static electricity and reduces hair frizz.
Extreme Protect function. This function prevents the hair from getting damaged due to excessive temperature and fixes hairstyles by applying oscillating temperature automatically.
Auto-clean function. Easy Clean function that automatically cleans the filter, looking after your device and keeping it as efficient as day one. This function reverses air flow direction in order to clean the filter efficiently.
Memory function. This function saves the previous speed and temperature setting.
It includes 3 professional magnetic attachments, 2 fine concentrator nozzles and a special round nozzle, which help to define and straighten the hair, concentrating the air output to make styling and finishing easy and with a professional finish.
Thanks to the digital motor and to its design, the hair dryer is much lighter and silent. Friction is reduced, noise is decreased and its weight is lightened as bristles are removed. Its compact design also makes it much lighter and handy during use.
The Cool shot function fixes hairstyles for longer and results in more professional looks.
The digital motor is much more powerful and efficient, it is capable of generating greater air flows and of making the most out of its power, reducing the time required to dry hair.
Its 5 temperature and speed settings adapt air flow and temperature, allowing total control whilst drying all types of hair.
Smart heat control. Due to the last-generation thermostat that measures air temperature and sends the information to a microprocessor in order to smartly control temperature and prevent hair damage caused by extreme heat without control.

COMPOSITION:

Pouch bag, instruction manual, appliance

-  5.2 x 26.4 x 26 cm 1.2 kg
54 x 27.5 x 29 cm 12.25 kg
-  17.6 x 3.9 x 20 cm 0.5 kg
-  220-240 ~ V 50/60 Hz
1200 W
-  8435484042444 (Box)

04244

IoniCare 6000 Rockstar Soft Pr

Hairdryer with digital motor and real ion, Extreme Protect, and self-cleaning function with diffuser.

FEATURES:

Thanks to the new energy-efficient, digitally optimised motor, we achieve drying power with a constant and powerful airflow at only 1200 W, which translates into an eco model without sacrificing drying power.

The negative ion generator enhances the hair's natural brightness, leaves it shiny, reduces static electricity and reduces hair frizz.

Extreme Protect function. This function prevents the hair form getting damaged due to excessive temperature and fixes hairstyles by applying oscillating temperature automatically.

Auto-clean function. Easy Clean function that automatically cleans the filter, looking after your device and keeping it as efficient as day one. This function reverses the direction of air flow to effectively clean the filter at the touch of a button.

Memory function. This function saves the previous speed and temperature setting.

It includes 4 professional magnetic attachments, 2 fine concentrator nozzles and a special round nozzle, which help to define and straighten the hair, concentrating the air output to make styling and finishing easy and with a professional finish.

Thanks to the digital motor and to its design, the hair dryer is much lighter and silent. Friction is reduced, noise is decreased and its weight is lightened as bristles are removed. Its compact design also makes it much lighter and handy during use.

The Cool shot function fixes hairstyles for longer and results in more professional looks.

The digital motor is much more powerful and efficient, it is capable of generating greater air flows and of making the most out of its power, reducing the time required to dry hair.

Its 5 temperature and speed settings adapt air flow and temperature, allowing total control whilst drying all types of hair.

IoniCare RockStar Retro

Hair dryer with digital motor, 2000 W, 110000 rpm and ion technology.

FEATURES:

Brushless digital motor: high efficiency of its motor that maximises its 2000 W of power and its 110,000 rpm. It is also lighter and quieter.

Real Ion: Ions act on hair leaving it shinier and more hydrated. They also enhance natural hair's anti-frizz features.

Air Repair technology: hydrates hair during use, improving hair conditions and avoiding hair damage caused by the drying process.

Precision nozzle: get a long-lasting, flawless finish.

More volume, perfect curls: it features a diffuser that helps to obtain a natural maximum volume at the roots and define curls easily with a professional and long-lasting finish.

Cool air function: gives extra hold to your hairstyle to keep it perfect and durable for a longer period of time.

High air flow: dries hair quickly and uniformly with high airflow, which prevents damage to colour and shine.

HairCare technology: protects hair against overheating.

Total control: with temperature and speed adjustment, you can choose the ideal settings for your hair and style. It has two speed settings and three temperature settings.

Longer lifespan: the lifespan of the hair dryer is much longer compared to other conventional hair dryers due to the removal of the brushes in the digital motor, thus avoiding the wear and tear they cause.

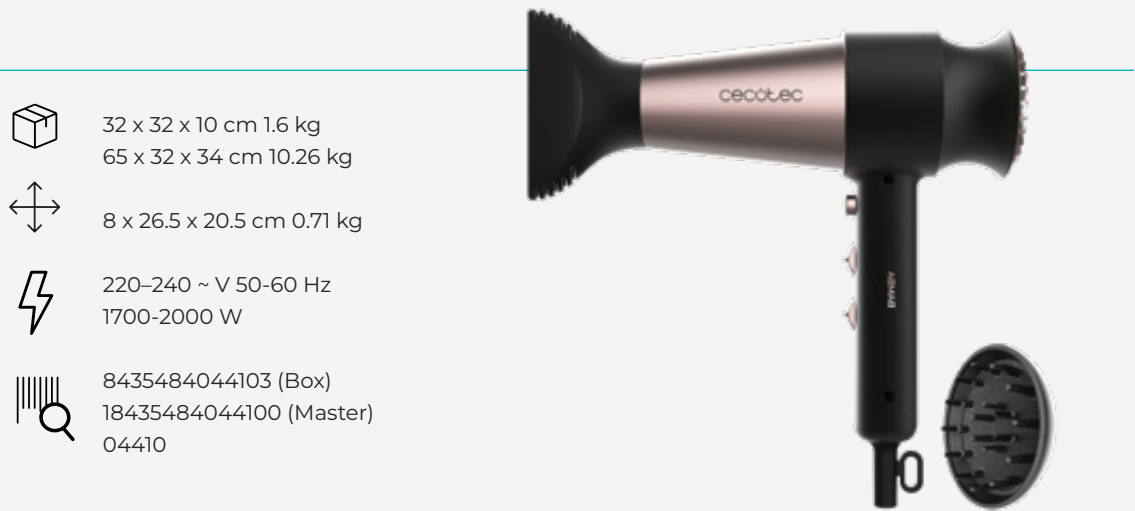

Easy to clean filter: the hair dryer's filter is very useful and easy to clean, as the back grid can be removed. It also extends the lifespan of the dryer and allows it to operate at optimum levels.

Hang it wherever you want: it comes with a strong ring to hang the dryer anywhere, when not in use or to store it without taking up extra space.

Freedom of movement: 1.8 m of cable so you can use the hair dryer comfortably anywhere, with total freedom of movement.

COMPOSITION:

1 concentrator nozzle, diffuser, instruction manual, product

- 32 x 32 x 10 cm 1.6 kg
65 x 32 x 34 cm 10.26 kg
- 8 x 26.5 x 20.5 cm 0.71 kg
- 220-240 ~ V 50-60 Hz
1700-2000 W

IoniCare RockStar Aluminum

Hair dryer with digital motor, 2000 W, 105000 rpm and ion technology.

FEATURES:

Brushless digital motor: high efficiency of its motor that maximises its 2000 W of power and its 105000 rpm. It is also lighter and quieter.

Real Ion: Ions act on hair leaving it shinier and more hydrated. They also enhance natural hair's anti-frizz features.

The dryer has an aluminium body design, which makes it more resistant and waterproof.

Precision nozzle: includes a precision nozzle that helps define and straighten hair with magnetic bonding.

Easy Clean: the hair dryer's filter is very useful and easy to clean, as the back grid can be conveniently removed. Also, it extends the life of the dryer and allows it to operate at optimum levels.

Drying under control: it has 3 speed settings, which allow you to regulate the air flow for total control when drying any type of hair.

Adapts to your hair: 4 temperature settings, including cold air, allow you to adjust the temperature to suit all hair types. Even the minimum temperature would be suitable for babies, as it is a gentle and pleasant warmth of 45 °C.

Longer lifespan: the lifespan of the hair dryer is much longer compared to other conventional hair dryers due to the removal of the brushes in the digital motor, thus avoiding the wear and tear they cause.

Air Repair technology: hydrates hair during use, improving hair conditions and avoiding hair damage caused by the drying process.

COMPOSITION:

1 magnetic concentrator nozzle, instruction manual, product

IoniCare 6000 Rockstar Ice

Brushless hair dryer with digital motor, real ion and magnetic accessories.

FEATURES:

The Brushless Digital motor optimises the motor's power to produce a powerful continuous air flow rate and to reduce energy consumption.

Includes professional accessories with magnetic assembly system for easy assembling and disassembling. The diffuser has been designed to make curls look natural and flexible. Plus, it also includes 2 professional concentrating nozzles to help define and straighten hair.

AirRepair function. This function moisturises by applying water nano-particles charged with negative ions, which apart from avoiding hair damage, make hair shinier and remove hair frizz.

Extreme Protect function. Special function that takes care of your hair through automatic oscillating temperature. This function suits perfectly every type of hair.

Its 6 temperature and speed settings adapt air flow and temperature, allowing total control whilst drying all types of hair.

Thanks to its digital motor, this hair dryer is light and silent. Designed to reduce vibrations to minimum, allowing better hair handling and more comfortable hairstyling.

Thanks to its digital motor, this hair dryer is light and silent.

COMPOSITION:

Narrow concentrator nozzle, normal concentrator nozzle, diffuser, instruction manual, appliance

IoniCare 6000 Rockstar Fire

Brushless hair dryer with digital motor, real ion and magnetic accessories.

FEATURES:

The Brushless Digital motor optimises the motor's power to produce a powerful continuous air flow rate and to reduce energy consumption. IoniCare Rockstar Ion Touch

Dryer with digital motor and real ion, digital touch display, and magnetic accessories.

FEATURES:

Digital Brushless motor. The motor rotates at a higher RPM for a high continuous airflow with less energy consumption. New, simpler and faster touch display. 2 professional accessories with magnetic attachment: a diffuser and a professional concentrator nozzle for defining and straightening hair. Designed with Air Repair technology to moisturise hair during the drying process. The real ion generator brings out the hair's natural shine and prevents heat damage, leaving hair flawless by reducing static electricity and frizz. Extreme Protect function. Hair care thanks to the automatic oscillating temperature. Memory function. This function remembers the last speed and temperature setting that was used on the dryer. 6 temperature and speed settings, allowing the air flow and temperature to be regulated. Smart heat control. Thanks to the built-in thermostat, the dryer measures the air temperature and sends the information to a microprocessor to control the temperature and prevent damage caused by extreme heat. Its digital motor has 17 blades that generate an inaudible frequency, making it more silent. Increased lifespan by removing the bristles from the motor. Cold air function to extend the duration of the hairstyle with professional styling. 1.8-m cable for a more comfortable use.

COMPOSITION:

Variable concentrator nozzle, diffuser, instruction manual, appliance

IoniCare Rockstar AirSonic

Hair dryer with 4 modes: baby, pet, normal and quick dry, with ion generator, ExtremeProtect function, intelligent heat control and 8 speed settings.

FEATURES:

Digital brushless motor, thanks to which you can enjoy lower noise and higher airflow and durability.
Saves drying time thanks to its high power of 1800 W motor, optimises motor power by turning at higher revolutions to obtain a high continuous air flow with less waste.
It has 4 modes: baby, pet, normal and quick dry to suit all people, needs and preferences.
The negative ions neutralise positive ions that are naturally found in hair, causing the cuticle to close, sealing moisture in the hair shaft, and reducing frizz.
ExtremeProtect function. Hair care thanks to the automatic oscillating temperature.
Smart heat control. Thanks to the built-in thermostat, the hair dryer measures the air temperature and sends the information to a microprocessor to intelligently control the temperature and prevent damage to the hair from uncontrolled extreme heat.
Thanks to its memory function, get it to remember the last speed and temperature setting that was used on the hair dryer to have it ready to use instantly.
Each mode has 2 speeds which you can choose at any time, so you can generally enjoy 8 speeds to suit every hair.
Includes 2 temperatures for each mode, so you can choose the setting you need most.
The normal and quick-drying modes include the cool air function in order to seal the hair after drying.

COMPOSITION:

Concentrator nozzle, instruction manual, appliance

-  34.5 x 8.5 x 23.5 cm 1.54 kg
44.5 x 36 x 48.5 cm 15 kg
-  7 x 9.5 x 26.5 cm 0.74 kg

IoniCare Rockstar Nano IonTech

Hair dryer with nano ions, 110000 rpm, display, intelligent heat control, 3 temperatures, 3 speeds and memory function.

FEATURES:

Nano Ion. The work of the nano ion generator is to balance the hair with positive and negative charge, reducing frizz. Contains
Powerful brushless motor of 110.000 rpm and 1600 W, optimises the power of the motor by turning at higher revolutions to obtain a large continuous air flow with lower energy consumption for a more efficient, powerful, silent and light drying.
View the chosen speed and temperature settings through the display.
Smart heat control. Thanks to the built-in thermostat, the hair dryer measures the air temperature and sends the information to a microprocessor to intelligently control the temperature and prevent damage to the hair from uncontrolled extreme heat.
It includes 3 temperatures to suit all hair types, including cold air.
Get any type of hairstyle thanks to its 3 speed settings.
Enjoy the convenience of using this hair dryer thanks to its compact and lightweight design.
Its Memory function ensures that it remembers the last speed and temperature setting used for fast start up.
Includes 2 professional accessories with magnetic assembly system for easy assembling and disassembling. The diffuser is designed for natural, frizz-free curls, and includes 1 professional concentrator nozzle to define the style and straighten the hair.
Quieter motor, making it easier to dry your hair.

COMPOSITION:

Concentrator nozzle, diffuser, instruction manual, product

-  31.5 x 16 x 18.5 cm 1.04 kg
50 x 32.5 x 35.5 cm 13.19 kg

IoniCare RockStar Nano IonTech Champagne

Hair dryer with Plasma technology, 110000 rpm, display, smart heat control, 3 temperatures, 3 speeds and memory function.

FEATURES:

Plasma technology: features negative ions that neutralise the positive ions naturally found in hair and cause the cuticle to close, sealing moisture in the hair shaft and completely eliminating static electricity from your hair.
More airflow, less noise: thanks to its brushless motor with 110000 rpm and 1600 W, you can enjoy less noise, higher airflow and longer life.
View your settings: you can view your chosen speed and temperature settings via the display on the dryer.
Intelligent heat control: thanks to the built-in thermostat, the dryer measures the air temperature and sends the information to a microprocessor to intelligently control the temperature and prevent damage to the hair from uncontrolled extreme heat.
Suitable for all hair types: 3 temperatures to suit all hair types, including cold air.
Choose your ideal hairstyle: achieve any type of hairstyle thanks to its 3 speeds.
Convenient to use: enjoy the convenience of using this dryer thanks to its compact and lightweight design.
Memorises settings: its memory function ensures that it remembers the last speed and temperature setting that was used on the dryer, so that it is ready to use instantly.
Includes a professional concentrator nozzle to define the style and straighten the hair.
Quiet motor: quieter motor, making drying hair easier.

COMPOSITION:

Concentrator nozzle, instruction manual, appliance

24.5 x 14 x 7.3 cm 0.54 kg

IoniCare RockStar Nano IonTech Blue

Hair dryer with Plasma technology, 110000 rpm, display, smart heat control, 3 temperatures, 3 speeds and memory function.

FEATURES:

Plasma technology: features negative ions that neutralise the positive ions naturally found in hair and cause the cuticle to close, sealing moisture in the hair shaft and completely eliminating static electricity from your hair.
More airflow, less noise: thanks to its brushless motor with 110000 rpm and 1600 W, you can enjoy less noise, higher airflow and longer life.
View your settings: you can view your chosen speed and temperature settings via the display on the dryer.
Intelligent heat control: thanks to the built-in thermostat, the dryer measures the air temperature and sends the information to a microprocessor to intelligently control the temperature and prevent damage to the hair from uncontrolled extreme heat.
Suitable for all hair types: 3 temperatures to suit all hair types, including cold air.
Choose your ideal hairstyle: achieve any type of hairstyle thanks to its 3 speeds.
Convenient to use: enjoy the convenience of using this dryer thanks to its compact and lightweight design.
Memorises settings: its memory function ensures that it remembers the last speed and temperature setting that was used on the dryer, so that it is ready to use instantly.
Includes a professional concentrator nozzle to define the style and straighten the hair.
Quiet motor: quieter motor, making drying hair easier.

IoniCare RockStar Nano IonTech Aluminum

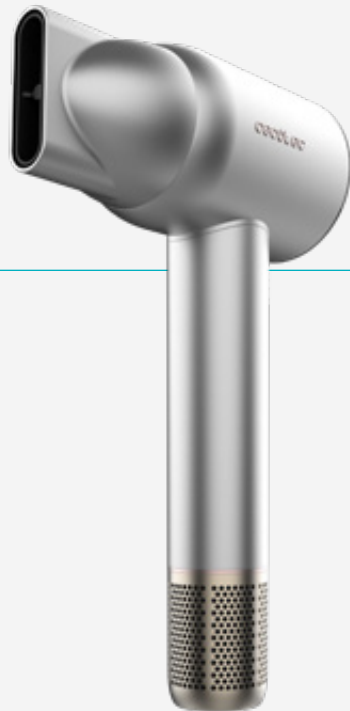

Hair dryer with Plasma technology, 110000 rpm, display, smart heat control, 3 temperatures, 3 speeds and memory function.

FEATURES:

Plasma technology: features negative ions that neutralise the positive ions naturally found in hair and cause the cuticle to close, sealing moisture in the hair shaft and completely eliminating static electricity from your hair.
More airflow, less noise: thanks to its brushless motor with 110000 rpm and 1600 W, you can enjoy less noise, higher airflow and longer life.
View your settings: you can view your chosen speed and temperature settings via the display on the dryer.
Intelligent heat control: thanks to the built-in thermostat, the dryer measures the air temperature and sends the information to a microprocessor to intelligently control the temperature and prevent damage to the hair from uncontrolled extreme heat.

IoniCare Rockstar Euphoria

1400 W vertical hair dryer with 21 m/s air speed, plasma technology and a slot that allows you to insert strands of hair from the root and dry them so that they stay straight.

FEATURES:

Exceptional effortless styling: experience a new way of drying and styling your hair with our vertical dryer. Its ergonomic, comfortable-to-grip design offers an effortless drying experience and exceptional style every day.
Natural results in every strand: with its CompactAir technology and innovative slot, this hair dryer allows you to place the hair strands inside it, where the air pressure acts gently to dry and straighten the hair, providing smooth and natural results.
Manageable, smooth, frizz-free hair: it incorporates plasma technology that completely eliminates static electricity from the hair, leaving it smooth, manageable and frizz-free for a flawless finish with every use.
Take it with you wherever you go: with its super-compact and lightweight design, this hair dryer is perfect to transport, ensuring impeccable styling even on your travels.
Fast and efficient drying: equipped with a powerful 1400 W BLDC motor, this hair dryer delivers a powerful and constant airflow for fast and efficient drying without damaging the hair.
Space-saving vertical design: thanks to its vertical design, this hair dryer saves space in your dressing table or in your bathroom, providing a perfect solution for homes with limited space and offering portability without sacrificing performance.
Dry hair in seconds: with a speed of up to 21 m/s, this hair dryer offers fast and efficient drying, allowing you to enjoy dry and styled hair in less time.
Safe and effective drying: thanks to its smart heat control, this hair dryer protects your hair from overheating and heat damage, providing safe and effective drying with every use.
Total control of your look: offers 3 different speeds so you can adjust the airflow according to your hair type and desired hairstyle, giving you total control over your look.
Ideal temperature for your hair: with 3 temperature settings, you can select the ideal temperature for your hair type and styling preferences, ensuring optimal results and no heat damage.

IoniCare RockStar Style Black

Very compact and lightweight hair dryer with 1500 W brushless motor and 110000 rpm.

FEATURES:

Lightweight and compact. Designed for maximum convenience, this hair dryer is incredibly compact and lightweight, making it easy to handle and transport. Perfect for everyday use at home or for travel.

Exceptional performance. Equipped with a powerful 1500 W brushless motor, this hair dryer offers unprecedented performance. Unlike traditional motors, the brushless motor provides maximum efficiency.

Faster drying. With an impressive speed of 110,000 rpm, this hair dryer ensures fast and efficient drying, thus significantly saving time.

Quiet operation. Enjoy quiet drying with this ultra-quiet hair dryer. Its advanced brushless technology minimises noise, providing a much more pleasant user experience.

Long lifespan: Thanks to its brushless motor, the lifespan of this hair dryer is considerably longer than that of conventional dryers. Guaranteed long-term investment for perfect hair with every use.

Eliminates frizz. Equipped with an ion generator, this hair dryer fights frizz and static, leaving your hair soft, shiny and manageable. Negative ions also help to maintain the hair's natural moisture.

Customise the drying. The hair dryer has four temperature settings, including cold air, and three different speeds. Find the perfect match for your hair type and desired style.

Keep your hair dryer in top condition. Its removable filter is designed for easy and effective cleaning. Regular maintenance ensures that your hair dryer lasts much longer and always performs at its best.
