Industrial fans comparative table	18

Industrial fans

Our industrial fans are unique in their power and large dimensions, which are superior to conventional floor fans. Enjoy a greater feeling of freshness in large rooms.

UP TO 120 W

Fresh-air feeling.

Get rid of the heat effectively thanks to the power of up to 120 W of our industrial fans and enjoy an unbeatable feeling of coolness all around your home.

UP TO 16' DIAMETER

Great air flow

Our industrial fans have a diameter of up to 50 cm which boosts the air output and provides you with a pleasant and uniform freshness.

3 SPEEDS

Perfect air control

Modify the fan speed to your liking thanks to its 3 speeds¹: low, medium and high.

OSCILLATION

Spreads freshness everywhere

Distributes the air throughout the room thanks to its comfortable oscillation system.

EnergySilence 1000 Pro industrial fan

12" and 40-W industrial fan, 3 speeds, 3 blades, easy to use, elegant design, and maximum safety.

FEATURES:

Great power of 40 W to facilitate room ventilation.

Its 12", equal to 30 cm, provide it with a great diameter which results in powerful air flows.

It has 3 speeds (Low, Medium and High) that allow you to regulate the intensity of the air flow according to the needs of each moment.

It has 3 aerodynamic blades to ensure maximum fresh air flow in the most efficient way.

Its simple usability allows for convenient control of the fan and quick and intuitive operation selection.

The steel finish provides the fan with an elegant design.

Maximum safety thanks to its sturdy and stable base and its grille to prevent fingers from getting into the fan.

EnergySilence 3000 Pro industrial fan

3-blade industrial fan, 16", 90 W, and 3 speeds.

FEATURES:

Power Wind Pro: Professional fan, maximum power, produces powerful air flow thanks to its high-quality materials and design.
AirFlow3 Pro: system that consists of 3 metallic blades (40 cm/16" diameter) to ensure maximum and efficient fresh-air flow release.
EnergySilence Technology: Creates an instant deep feeling of fresh air with maximum silence and comfort.
Copper Engine: Exclusive motor made of 100 % high-efficiency copper, completely reliable and maximum durability. It incorporates ThermoSafe security system to lengthen the fan's shelf life and to avoid incidents and faults.
3Speed Function: Choose between its 3 operating speeds (low, medium and high) in order to adjust the air flow intensity to your needs.
Total Control: The fan's tilt grade can be adjusted just by pressing the fan's cover, adapting to all users and situations.
Security System: Integral security system composed of a safety grid that prevents access to the blades.
Very stable base.
Health&Safety: The fan complies with environmental safety and protection current legislation, so you can take care of your people and your environment.
Maximum-quality metallic finishings to ensure the best performance in harsh environments: industrial, commercial and outdoors.

EnergySilence 4100 Pro industrial fan

3-blade industrial fan, 18", and 100 W.

FEATURES:

Power Wind Pro: Professional fan, maximum power, produces powerful air flow thanks to its high-quality materials and design.
AirFlow3 Pro: system that consists of 3 metallic blades (45 cm/18" diameter) to ensure maximum and efficient fresh-air flow release.
EnergySilence Technology: Creates a deep feeling of fresh air with maximum silence and comfort.
Copper Engine: Exclusive motor made of 100 % high-efficiency copper, completely reliable and maximum durability. It incorporates ThermoSafe security system to lengthen the fan's service life and to avoid incidents and faults.
3Speed Function: choose between its 3 operating speeds (Eco, Normal and Turbo) to adjust air flow intensity to your needs.
Total Control: The fan's tilt grade can be adjusted just by pressing the fan's cover, adapting to all users and situations.
Security System: Integral security system composed of a safety grid that prevents access to the blades.
Very stable base.
Health&Safety: The fan complies with environmental safety and protection current legislation, so you can take care of your people and your environment.
Maximum-quality finish to ensure the best performance in harsh environments: industrial, commercial and outdoors.

EnergySilence 4300 Pro industrial fan

3-blade industrial fan, 18", and 110 W.

FEATURES:

Power Wind Pro: Professional fan, maximum power of 110 W, produces powerful air flow thanks to its high-quality materials and design.

AirFlow3 Pro: system that consists of 3 metallic blades (45 cm/18" diameter) to ensure maximum and efficient fresh-air flow release.

EnergySilence Technology: Creates a deep feeling of fresh air with maximum silence and comfort.

Copper Engine: Exclusive motor made of 100 % high-efficiency copper, completely reliable and maximum durability. It incorporates ThermoSafe security system to lengthen the fan's service life and to avoid incidents and faults.

3Speed Function: choose between its 3 operating speeds (Eco, Normal and Turbo) to adjust air flow intensity to your needs.

EnergySilence 4500 Gyro Pro industrial fan

3-blade industrial fan, 18", and 110 W.

FEATURES:

Power Wind Pro: Professional fan, maximum power of 110 W, produces powerful air flow thanks to its high-quality materials and design.

RotateGyro: Innovating blade-oscillation mode to generate a greater air flow angle and to offer a wider freshness area.

AirFlow3 Pro: system that consists of 3 metallic blades (45 cm/18" diameter) to ensure maximum and efficient fresh-air flow release.

EnergySilence Technology: Creates a deep feeling of fresh air with maximum silence and comfort.

Copper Engine: Exclusive motor made of 100 % high-efficiency copper, completely reliable and maximum durability. It incorporates ThermoSafe security system to lengthen the fan's service life and to avoid incidents and faults.

3Speed Function: choose between its 3 operating speeds (Eco, Normal and Turbo) to adjust air flow intensity to your needs.

Total Control: The fan's tilt grade can be adjusted just by pressing the fan's cover, adapting to all users and situations.

Security System: Integral security system composed of a safety grid that prevents access to the blades and a very stable base.

Health&Safety: The fan complies with environmental safety and protection current legislation, so you can take care of your people and your environment.

EnergySilence 5000 Pro industrial fan

3-blade industrial fan, 20", 120 W, copper motor.

FEATURES:

Power Wind Pro: Professional fan, maximum power of 120 W, produces powerful air flow thanks to its high-quality materials and design.

AirFlow3 Pro: system that consists of 3 metallic blades (51 cm/20" diameter) to ensure maximum and efficient fresh-air flow release.

EnergySilence Technology: Creates an instant deep feeling of fresh air with maximum silence and comfort.

Copper Engine: Exclusive motor made of 100 % high-efficiency copper, completely reliable and maximum durability. It incorporates ThermoSafe security system to lengthen the fan's service life and to avoid incidents and faults.

3Speed Function: choose between its 3 operating speeds (Eco, Normal and Turbo) to adjust air flow intensity to your needs.

Total Control: The fan's tilt grade can be adjusted just by pressing the fan's cover, adapting to all users and situations.

Security System: Integral security system composed of a safety grid that prevents access to the blades and a very stable base.

ChromeDesign: Designed with elegant lines and chrome finish that adapt to all environments.

Health&Safety: The fan complies with environmental safety and protection current legislation, so you can take care of your people and your environment.

Maximum-quality metallic finishings to ensure the best performance in harsh environments: industrial, commercial and outdoors.

EnergySilence 900 FloorFlow

9" and 30 W industrial fan, 2 speeds, 3 blades, easy to use and maximum safety.

FEATURES:

30 W: high power motor that facilitates the ventilation of the room in which the fan is located.

9 inches: give it a large diameter that boosts airflow output.

2 speeds: choose between Low or High mode and regulate the intensity of the air flow according to the needs of the moment.

3 blades: aerodynamic blades ensure maximum fresh air flow in the most efficient way.

Easy to use: allows convenient control of the fan and quick and intuitive selection of fan operation.

Maximum safety thanks to its strong and stable base and its grille to prevent fingers from getting into the fan.

EnergySilence 1400 FloorFlow

14" and 50 W industrial fan, 3 speeds, 5 blades, easy to use and maximum safety.

FEATURES:

Very powerful: 50 W which facilitates the ventilation of the room in which the fan is placed.
Large diameter: the fan has a diameter of 14 inches, which provides power to the airflow output.
3 speeds: Low, Medium and High so that you can regulate the intensity of the air flow according to the needs of each moment.
It has 5 aerodynamic blades to ensure maximum fresh air flow in the most efficient way.
Easy to use: enjoy convenient fan control and select fan operation quickly and intuitively.
Maximum safety thanks to its strong and stable base and its grille to prevent fingers from getting into the fan.

EnergySilence 2000 FloorFlow

20" and 90 W industrial fan, 3 speeds, 5 blades, easy to use and maximum safety.

FEATURES:

Very powerful: 90 W which facilitates the ventilation of the room in which the fan is placed.
Large diameter: the fan has a diameter of 20 inches, which provides power to the airflow output.
3 speeds: Low, Medium and High so that you can regulate the intensity of the air flow according to the needs of each moment.
It has 5 aerodynamic blades to ensure maximum fresh air flow in the most efficient way.
Easy to use: enjoy convenient fan control and select fan operation quickly and intuitively.
Maximum safety thanks to its strong and stable base and its grille to prevent fingers from getting into the fan.
